HOW TO DO THE WORK

INTERACTIVE WORKSHOP

Join Matt and Sarah Brown for a trauma-informed, interactive training designed for those working in domestic, family or sexual violence, including those working with men or men's mental health. This hands-on experience builds empathy, courage, and competence, empowering first responders like clinicians, teachers, police, and community workers to engage more effectively with those impacted by and using violence in their relationships.

Join NO MORE and She is Not Your Rehab for the 'How to Do the Work' interactive workshop, led by Mataio Taimalelagi Brown MNZM. This workshop is for anyone working in the domestic, family and sexual violence space including clinicians, support staff, teachers, police, social workers or community leaders.
