

DEPARTMENT OF TOURISM AND CULTURE

ANNUAL REPORT

2016-17

ARTS AND MUSEUMS / HERITAGE / PARKS AND WILDLIFE COMMISSION / SPORT AND RECREATION / TOURISM NT

Purpose

The annual report of the Department of Tourism and Culture provides a record of the department's achievements for the 2016-17 financial year.

In order to comply with annual reporting requirements under section 28 of the *Public Sector Employment and Management Act*, the *Financial Management Act* and the *Information Act*, the report aims to inform Parliament, Territorians, and other stakeholders of:

- the department's primary functions and responsibilities
- significant activities undertaken during the year highlighting specific achievements against budget outputs
- the department's fiscal management and performance.

Target Audience

This annual report provides information to many target audiences about the department's activities and achievements for the 2016-17 financial year. It is tabled by the Minister in Parliament, primarily as an accounting and reporting mechanism for the department's income and financial expenditure for the year to 30 June 2017.

The report provides information for other government agencies and the wider public about the range, purpose and success of activities undertaken by the department and also formally acknowledges the achievements of its employees.

Letter to the Minister

Dear Minister

I am delighted to present you with the 2016-17 Annual Report of the Department of Tourism and Culture, which has been prepared in accordance with the provisions of Section 28 of the *Public Sector Employment and Management Act* and Section 12 of the *Financial Management Act*.

Pursuant to my responsibilities as the Accountable Officer under the *Public Sector Employment and Management Act*, the *Financial Management Act* and the *Information Act*, I advise that to the best of my knowledge and belief:

- (a) proper records of all transactions affecting the Department of Tourism and Culture are kept and all employees under my control observe the provisions of the *Financial Management Act*, its regulations and applicable Treasurer's Directions
- (b) procedures within the department afford proper internal control and these procedures are recorded in the Accounting and Property Manual which has been prepared in accordance with the requirements of the *Financial Management Act*
- (c) there is no indication of fraud, malpractice, major breach of legislation or delegation, or major error in, or omission from, the accounts and records
- (d) in accordance with Section 15 of the *Financial Management Act*, the internal audit capacity was adequate and the results of all internal audit matters were reported to me
- (e) the financial statements included in this annual report have been prepared from proper accounts and records and are in accordance with the Treasurer's Directions
- (f) all Employment Instructions issued by the Commissioner for Public Employment have been satisfied
- (g) in respect to my responsibilities pursuant to Section 131 of the *Information Act*, I advise that to the best of my knowledge and belief, processes have been implemented to achieve compliance with the archives and records management provisions prescribed in Part 9 of the *Information Act*.

Chief Executive Officer's Overview

The Department of Tourism and Culture was formed in 2016-17, by amalgamating agencies including Tourism NT, the former Departments of Sport and Recreation, Arts and Museums, and the Parks and Wildlife Commission, the Heritage Division of the former Department of Lands, Planning and Environment, and the Darwin Waterfront Corporation and Northern Territory Major Events Company.

The common thread binding this new agency together is not the diverse activities that these functional areas undertake and support, but rather a shared and united purpose in:

- > providing industry and sector support to assist with development, governance and viability
- > providing grant funding to support a variety of activities and events
- > conserving and protecting places, objects, events, natural and other elements which make up the physical and cultural identity of the Northern Territory
- > promoting our physical and cultural identity, together with the Northern Territory more broadly, to inspire people from outside of the region to visit, and also encourage participation by Territorians.

The creation of the new department has presented a significant opportunity to strengthen the way we carry out these functions, and to achieve efficiencies through economies of scale.

One small example of how we have strengthened existing activities is the recent iNstagrammers exhibition at the Northern Territory Library. The exhibition received international and national media attention because the department leveraged Tourism NT's existing media and marketing expertise to increase its exposure and reach, which was a great outcome for the project.

Significant achievements realised during the year included the commemoration of the 75th anniversary of the Bombing of Darwin in February 2017 as part of The Territory Remembers program, and the successful expedition to the Sanyo Maru to recover a number of archaeological relics which

will ultimately be displayed in the Territory in the near future for all to enjoy. A cross jurisdictional taskforce involving the South Australian and Northern Territory Governments was established to focus on tourism, arts and cultural events. A steering committee was established to identify and provide options and recommendations on the development, construction, establishment and operations of the new Iconic National Indigenous Art Gallery. Construction also commenced on a \$16 million tennis centre and planning for a \$18 million netball centre at Marrara and 3827 athletes participated in the 2016 Alice Springs Masters Games. During 2016-17, the department and the Jawoyn Association Aboriginal Corporation jointly developed and implemented the Nitmiluk National Park Carbon Farming project and an Aboriginal rock-art and cultural site project in Limmen National Park was completed.

I would also like to acknowledge the enormous effort of our corporate staff in managing the machinery of government changes needed to establish the Department of Tourism and Culture, which included implementing a new corporate services division to effectively support our ongoing operation as a Northern Territory Government agency.

In order to realise the contemporary vision of the Department of Tourism and Culture, it will be necessary to make some significant changes to the way we carry out our business. I have been pleased to see universal support and enthusiasm from staff at all levels to explore new ways of working to realise the benefits of amalgamating the functions covered by the department.

This has been clearly evident during my visits to divisions and regional locations, and throughout our recent strategic planning exercise.

I particularly thank staff for enthusiastically embracing this new opportunity, and for the incredible way you have welcomed me and demonstrated your unflinching support for the work of the department. Your dedication and enthusiasm will drive our department to achieve exciting outcomes for the Northern Territory.

There is much to look forward to in the upcoming year, including the outcomes of the Live Darwin and Live Alice Mparntwe grants programs, the next phase of the Northern Territory / South Australian partnership, community consultation to inform future Territory Wildlife Park planning, outcomes of our marketing efforts in China and India, and progress in significant infrastructure projects including the Iconic National Indigenous Art Gallery, Warren Park redevelopment, Marrara netball stadium, Indigenous art trail, and new Museum of the Northern Territory.

01 Our Department

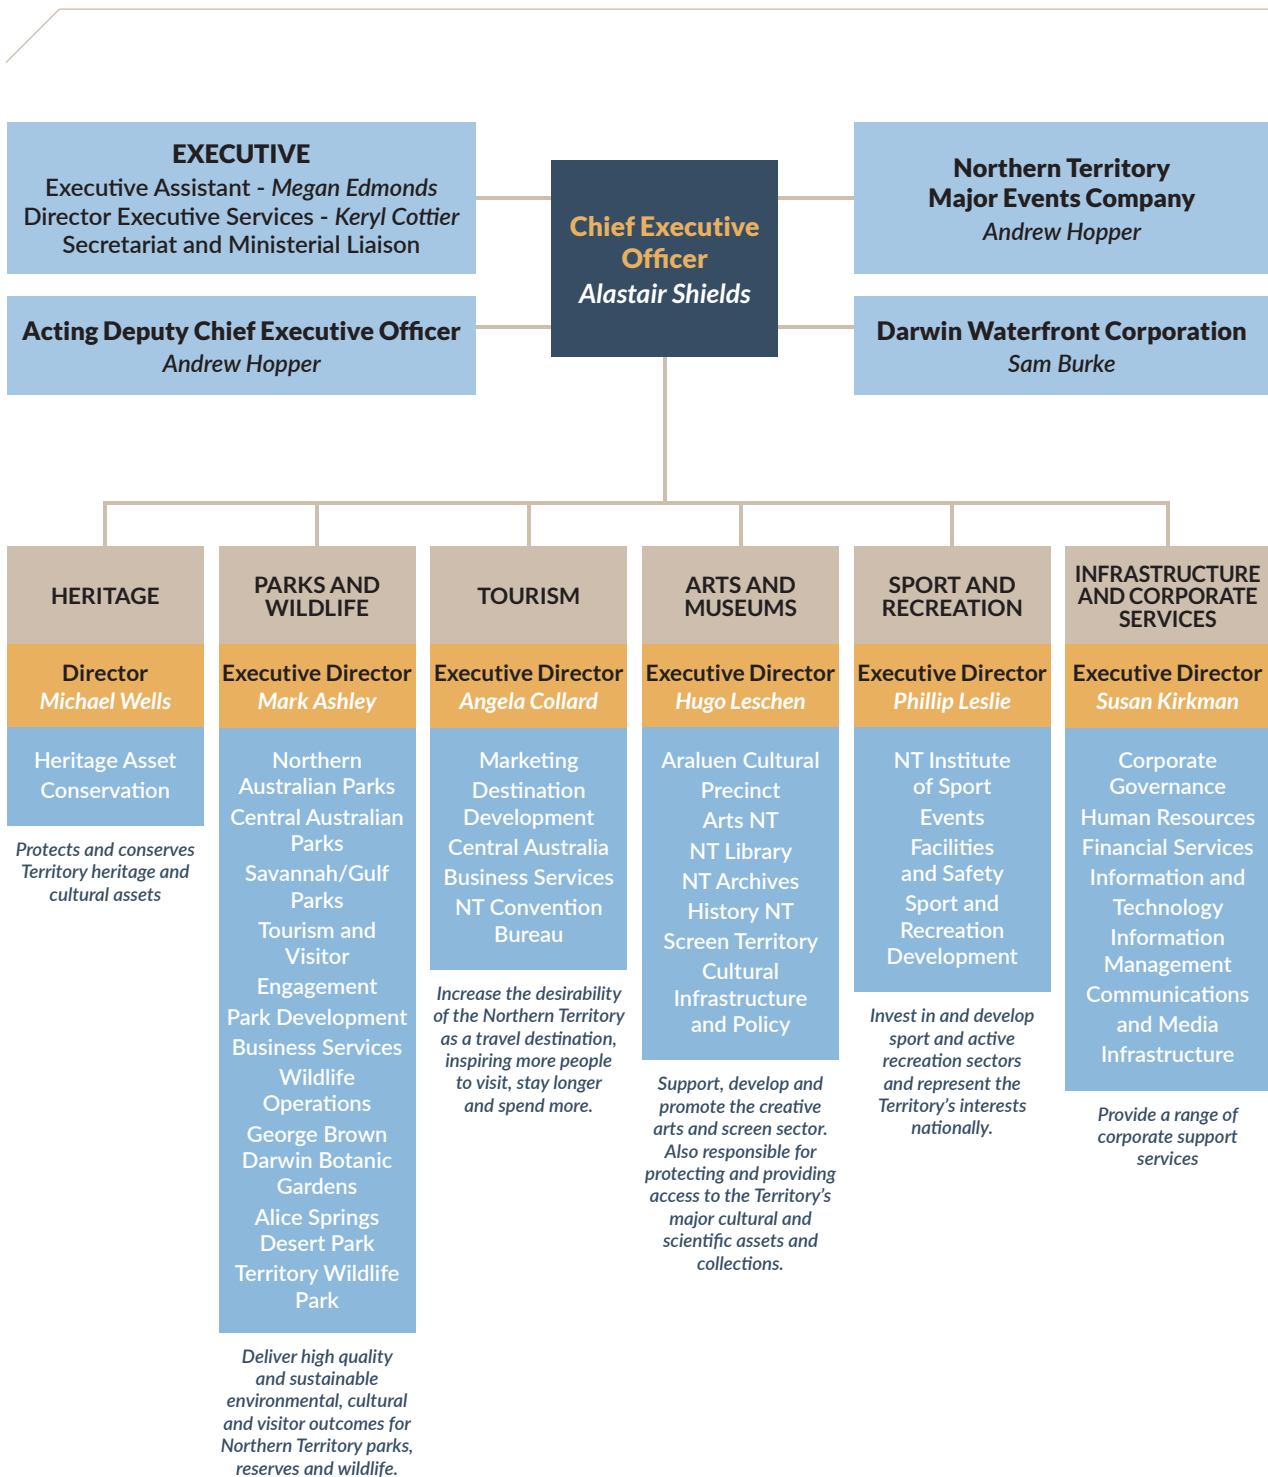

Our Location

The department operates from offices located throughout the Territory and also has tourism staff based in Sydney and Melbourne.

Our Structure

Governance Board

Alastair Shields

Chief Executive Officer

Alastair was appointed Chief Executive Officer (CEO) in September 2016, following his role as CEO of the Department of Land Resource Management. Alastair was born and raised in Darwin and has more than 35 years of public sector experience in the Northern Territory. He has qualifications in Law and Accounting and has a Masters in Public Administration.

Andrew Hopper

Acting Deputy CEO/General Manager, Northern Territory Major Events Company

Andrew has extensive experience in leading the planning and delivery of major national and international projects and events. As Acting Deputy CEO, Andrew will focus on developing a cohesive strategic plan for the department, ensuring the appropriate human, physical and financial resources are available to support its implementation.

Angela Collard

Executive Director, Tourism NT

Angela plays a critical role in providing leadership and direction to the Tourism NT team to achieve Tourism Vision 2020 targets and deliver on government priorities with the CEO and Board of Commissioners. Angela has more than 20 years' experience in public sector senior management positions, predominantly in tourism, and gained valuable knowledge while working at the Australian Tourist Commission's UK/Europe office in London. She holds a Masters of Business Administration (Executive) from RMIT.

Hugo Leschen

Executive Director, Arts and Museums

Hugo commenced work with the Northern Territory Government in February 2010. He has vast experience across the arts and cultural sector and his various roles have included being responsible for sponsorship at the Victoria State Opera. Hugo established the Australia Cultural Fund and initiated and developed the Australia Business Arts Foundation National Skills Development Program.

Governance Board

Joanna Frankenfeld

Chief Finance Officer

Joanna is responsible for providing high level policy and technical advice on financial and budget issues facing the department. Joanna has gained a wealth of experience through various senior finance positions in the UK and Australia, both in commercial firms and with the Northern Territory Government over the past 25 years. She is a Fellow of both the Association of Chartered Certified Accountants and Institute of Public Accountants as well as a graduate member of the Australian Institute of Company Directors.

Keryl Cottier

Director, Executive Services

Keryl provides high level advice, support and co-ordination to the CEO to ensure effective operation and delivery of the department's strategic objectives and priorities. Keryl also leads the Secretariat/Ministerial Liaison Unit. She has worked for the Northern Territory Government in a broad range of roles for more than 20 years.

Mark Ashley

Executive Director, Parks and Wildlife

Mark provides strategic leadership across a variety of conservation, commercial and community engagement programs on the Territory-wide parks estate. He was previously Executive Director Bushfires NT responsible for fire management planning and suppression programs on non-urban Territory land. Mark's public sector experience is complemented by corporate experience as a commercial general manager responsible for a diverse portfolio of environmental, health and community development programs across Australia and internationally.

Governance Board

Michael Wells

Director, Heritage Branch

Michael started working in cultural heritage management in the Northern Territory more than 20 years ago, and has been Director of the Heritage Branch since 2005. He has Degrees in Architecture and Urban and Regional Planning.

Susan Kirkman

Executive Director, Infrastructure and Corporate Services

Susan provides organisational leadership across infrastructure management and corporate services and is responsible for supporting the CEO on corporate governance and effectiveness strategies. Susan has extensive experience in executive management roles within both the private and public sectors. She holds a Business Degree and has qualifications in accounting, governance and risk management.

Phillip Leslie

Executive Director, Sport and Recreation

Phillip has held a number of executive roles with the Northern Territory Government including his current role in Sport and Recreation. Phillip holds qualifications in Education and a Masters in International Management.

Sport and Recreation invests in and develops the sport and active recreation sectors of the Territory.

In March 2017, the Department of Tourism and Culture facilitated a strategic planning day to begin development of the department's strategic plan. Following the planning day, the Chief Executive Officer met with all staff across the Territory to seek individual feedback and ideas.

The plan will seek to provide a framework for creating greater collaboration and efficiency across the Department. The ultimate objective being to ensure there are many reasons to not only live in the Northern Territory but to also visit.

The department will shortly release a draft version of the strategic plan to all staff for feedback prior to its implementation.

Tourism NT markets the Northern Territory for tourism and works in partnership with other government departments and industry, to advance tourism interests in areas including aviation, infrastructure, workforce and business development. Tourism NT is governed by a Board of Commissioners who report to and advise the Minister for Tourism and Culture.

The **Heritage Branch** is responsible for protecting and providing access to the Northern Territory's major heritage and culture assets and collections and working with the community to conserve the region's unique natural and cultural heritage.

Parks and Wildlife is responsible for protecting and developing the Territory's parks and reserves for the benefit of the community, and also administers wildlife management programs. The Parks and Wildlife Division manages 87 parks and reserves covering close to 5.05 million hectares and containing spectacular natural, cultural, geological, historical, tourism and recreational values. Some 33 Territory parks are jointly managed with the traditional owners.

Sport and Recreation invests in and develops the sport and active recreation sectors of the Territory.

Arts and Museums supports, develops and promotes the creative arts and screen sector and protects and provides access to the Territory's major cultural and scientific assets and collections.

Infrastructure and Corporate Services provides a range of infrastructure management and corporate support services across the department.

02 Our People

Overview

The Department of Tourism and Culture has a uniquely diverse workforce of highly skilled professionals. The ability of our people to work together in an integrated way is our agency's greatest asset in achieving its strategic goals.

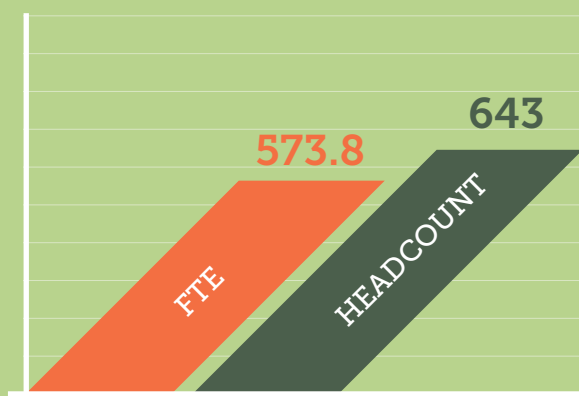

The department is committed to investing in and building the capacity of its employees through learning and development programs and career development opportunities. This includes 'growing our own' through an early careers program for new employees to ensure they are well-equipped to hit the ground running and supported through targeted training.

In 2016-17, work began on the Department's Strategic Workforce Plan which identifies current and future workforce challenges. It will establish actionable strategies to ensure our workforce can deliver against our strategic priorities both now and into the future. This plan, to be finalised in 2017-18, will include key priorities of leadership, diversity, culture and workforce planning.

Milestone Awards

In 2016-17, department staff with 30, 35 and 40 years of service were formally recognised for their extensive contribution to the public service through an agency recognition function or ministerial function available to all eligible Northern Territory Public Sector (NTPS) staff. Eight DTC staff achieved 30 years of service and nine staff 35 years of service. No department staff achieved 40 years of service during the period.

Other staff achievements

- > In October 2016, Bridget May, Business Manager, Screen Territory, completed a Graduate Certificate in Business Management.
- > Also in October 2016, Shay Vigona Goudge, Regional Arts Broker, received a Certificate IV in Business (Governance). In November 2016, Shay also completed the National Gallery of Australia (NGA) Wesfarmers Indigenous Arts Leadership Program.
- > Also in November 2016, NTIS Netball Head Coach, Gillian (Gill) Lee, was engaged as an assessor at Netball Australia’s High Performance Coach Accreditation course held in Adelaide. In this role, she worked alongside Australian Diamonds coach Lisa Alexander, Diamonds assistant coach Michelle Den Dekker and past Australian coach Jill McIntosh to evaluate eight coaches undertaking the highest level of netball coaching accreditation.
- > In late 2016, Clare Pries, Vanda Stewart and Phil Cowan completed the Public Sector Management Program.
- > In February 2017, Digital Media Officer, Brooke Ottley was named Top End NAIDOC Vocational Education and Training (VET) student of the year. This was Brooke’s fourth VET qualification since enrolling in an Advanced Diploma of Graphic Design in 2012.

Developing our Workforce Capacity and Capability

Our Culture

People Matter Survey

In 2016-17, the newly formed Department of Tourism and Culture (DTC) received the amalgamated results of the 2016 NTPS People Matter Survey. To gain further insight into the results, employee focus groups were held in Darwin and Alice Springs during December 2016. The department subsequently developed the DTC People Matter Response Plan which addresses identified areas for improvement including change management, engagement, feedback and recognition and learning and development.

Key actions in 2016-17 included:

- > finalising a department engagement strategy
- > developing a draft strategic plan with senior leaders
- > holding all-inclusive staff consultation meetings with the CEO on the draft strategic plan in Darwin, Alice Springs and Katherine
- > establishing the Reward and Recognition Scheme
- > developing a new formal performance management process
- > finalising a training calendar, promoted learning and development opportunities and delivered training on the MyLearning system
- > investigating options to support a middle management program
- > delivering the senior leaders forum
- > reviewing the corporate induction program

Diversity

The Department of Tourism and Culture embraces its diverse workforce and is committed to recognising and valuing the contributions of people from different cultures, backgrounds, experiences and perspectives. It promotes inclusion and diversity, which acknowledges the contribution that all employees bring to the workplace. It strives to maintain an environment that is free from bullying, harassment and discriminatory practices by encouraging employees to participate in programs such as cross cultural training, simplified recruitment, code of conduct, and the NTPS Employee Assistance Program (EAP). It also provides appropriate policies and procedures to support workplace equity and diversity.

The department is committed to improving employment outcomes for Aboriginal people who made up 10% of its staff in 2016-17, and special recruitment measures currently apply to identified positions throughout the agency.

In 2016-17, work also began on developing a four-year whole-of-agency employment and career development strategy to improve recruitment methods, retention strategies and career progression of Aboriginal people within the department. This strategy is expected to be completed and implemented in early 2017-18.

As well, our Parks and Wildlife Division's Aboriginal Employment Strategy 2014-17 is used as a tool to identify and advance employment opportunities for local Aboriginal people on the parks estate through direct and in-direct means.

The department's 4.5% of employees who identify as having a disability were supported to attend the Disability Confidence and Challenging Unconscious Bias training facilitated by the Office of the Commissioner for Public Employment (OCPE).

Employees from non-English speaking backgrounds made up 1.6% of the department's full-time equivalents.

Developing our Workforce Capacity and Capability

Women in Leadership

The department actively encourages the development of women in leadership roles, including participation in key learning and development opportunities. In 2016-17, the department supported the participation of two women in Australian and New Zealand School of Government (ANZSOG) programs including Change Agents and Advancing Leadership. It also supported two female participants in the Public Sector Management Program.

OUR PEOPLE

As at 30 June 2017, 40% of the department's Governance Board members were female.

Learning and Professional Development

The Department of Tourism and Culture is committed to building a highly professional workforce with a wealth of knowledge and expertise by investing in its employees' personal and professional development, thereby building the organisation's capability. Having an appropriately skilled workforce allows the department to deliver on our strategic priorities now and into the future.

In 2016-17, a total of \$241 176 was invested in learning and professional development to upskill department employees.

HR Services facilitates corporate training for all employees and supports individual work units to seek focused operational training to adequately equip employees with the skills to carry out their duties. Employees are also encouraged to attend conferences, seminars and workshops which are relevant and beneficial to their ongoing development.

The department's online learning management system, MyLearning, captures and manages all employee training records, coordinates corporate training and delivers suitable eLearning courses. Following machinery of government (MOG) changes, 22 employees received training on how to effectively use the MyLearning system.

Information on how to access study assistance and the professional development allowance is provided for employees on the department intranet site.

Learning and Professional Development

Senior Leaders' Forum

In May 2017, about 73 employees attended a senior leaders' forum facilitated by the department. The forum focussed on the theme, 'Creating Connections – working together for success' and included topics such as finding success on the brink of uncertainty, strengthening the way we work together, Aboriginal employment and engagement, diversity, communication and strengthening leadership. Key external stakeholders from the Department of Treasury and Finance, Anti-Discrimination Commission, Department of Environment and Natural Resources, Heritage Council of the NT and Tourism NT Board of Commissioners also participated in the forum.

The biannual senior leaders' forum brings together senior employees to build relationships, share knowledge and ideas for improving business and offers opportunities for professional development.

Study Assistance

The department supports employees to gain relevant professional and technical skills through higher education studies. Ten employees accessed assistance during 2016-17 to undertake study ranging from Certificates to Bachelor Degrees.

Areas of study supported during 2016-17 included:

- > Certificate III in Horticulture
- > Certificate IV in Captive Animals
- > Certificate IV in Leadership and Management
- > Graduate Certificate in International Business
- > Graduate Certificate in Strategic Management
- > Diploma in Conservation and Land Management
- > Bachelor of Science
- > Bachelor of Business (Human Resource Management)

Office of the Commissioner for Public Employment Training and Development Programs

The Department utilises training and development programs provided by the OCPE. During 2016-17, 75 employees participated in the following OCPE programs:

- > ANZSOG - Leadership for Change Agents
- > ANZSOG - Advancing Leadership
- > Public Sector Management Program
- > Simplified Recruitment and Merit Selection
- > Special Measures
- > Performance Management
- > Machinery of Government
- > Lookrukin/Kigurak Aboriginal Leadership Programs
- > Challenging Unconscious Bias
- > Disability Confidence

Corporate Training

The department delivers a range of corporate training initiatives to employees, including:

- > Corporate Induction
- > Code of Conduct
- > Cross Cultural Workshops
- > Appropriate Workplace Behaviour
- > Better Ministerial - Intensive

Corporate Induction

The department supports new employees through its online corporate induction eLearning program that provides integral information about the agency, its strategic priorities, corporate culture and key policies and procedures.

It also provides an awareness of corporate functions, performance agreement processes, entitlements and conditions of service, appropriate workplace behaviour and the NTPS Code of Conduct. Employees receive information on their responsibilities under the *Public Sector Employment and Management Act* (PSEMA) and the *Work Health and Safety (National Uniform Legislation) Act*.

In 2016-17, a total of 96 employees completed the corporate induction program.

The program is currently being redeveloped to revitalise and update its existing content. The revised version is expected to be completed and made available to employees in mid-2017-18.

Code of Conduct

Code of Conduct workshops are designed to enhance employees' knowledge on ethical business practices and provide practical strategies for dealing with situations that arise in the workplace. The workshop draws on the NTPS Principles and Code of Conduct, as set out in the PSEMA and Employment Instruction 12, Code of Conduct.

Code of Conduct workshops were delivered to 17 employees during 2016-17.

Cross Cultural Training

As part of its commitment to cultural awareness, the department supported 36 employees to attend cross cultural awareness training in 2016-17. The training provided skills in communication and working effectively across cultures, with a focus on:

- > awareness of one's own cultural world view
- > attitude towards cultural differences
- > knowledge of different cultural practices and worldviews
- > cross cultural skills.

The program will continue to be offered in 2017-18.

Appropriate Workplace Behaviours

During 2016-17, 18 employees attended Appropriate Workplace Behaviour workshops. The workshops examine what constitutes appropriate and inappropriate workplace behaviour and focusses on organisational values, issues around bullying and harassment and the promotion of positive workplace culture. Employees learn about their rights and obligations in regard to appropriate workplace behaviour and develop skills to build strategies and capabilities for managing and preventing inappropriate and unacceptable behaviour.

Better Ministerial Intensive

Nine employees attended a two-day Better Ministerial intensive workshop in 2016-17. The workshop was designed to assist them to confidently plan and write effective workplace documents including ministerial briefings.

Early Careers

The department is committed to building a skilled and dynamic local workforce by supporting early careers through a variety of programs. It offers a range of employment pathways through Northern Territory Employment Programs initiative.

Traineeship and School-Based Traineeship Programs

Traineeship programs provide new starters with employment and structured learning to develop workplace skills and gain a nationally recognised qualification.

In 2016-17, the department supported six school-based trainees, including three of Aboriginal descent, to study for qualifications including Certificate II and III in Business, Certificate III in Hospitality and a Certificate II in Animal Studies (Zoo keeping).

Also during the reporting year, the department supported six full-time Aboriginal trainees completing a Certificate III in Conservation and Land Management.

Aboriginal Employment Program

In 2016-17, the department supported five participants in the Aboriginal Employment Program.

This 20-week pre-employment initiative is specifically designed to attract Aboriginal job seekers and equip them with a foundation of skills relevant to entry level positions. The program incorporates accredited training with on-the-job experience and mentoring. On completion, program participants are offered temporary or ongoing positions within the department.

Work is required at a whole-of-agency level to develop and implement an Aboriginal Employment and Career Development Strategy (AECDS) to ensure a consistent approach across the department. DTC is currently engaged in strategic planning for the future, including developing the new AECDS and looks forward to working with the Northern and Central Land Councils throughout this process to achieve even greater employment opportunities for Aboriginal Territorians.

Performance Management

Managing employee performance and development is an obligation set out under the PSEMA and Employment Instruction Number 4, to provide accountability for all NTPS employees. The department upheld the performance and conduct principle by applying the Employment Instruction.

As the Department of Tourism and Culture was formed following the MoG changes, it used both an electronic and manual system in 2016-17.

The amalgamation of various departments to form this umbrella agency, and the use of different performance management systems, has impacted the take up rate of performance management. Some 62% of employees participated in the performance management process in 2016-17.

The department has comprehensively reviewed the current performance management systems and as a result, will start using a new system in early 2017-18. This will ensure a consistent performance management approach and improve the participation rate.

Electronic performance management system training was also delivered to 91 employees in 2016-17.

Legislative Compliance

Employment Instructions

Under the PSEMA, Employment Instructions provide direction to agencies on HR management matters. The department's performance against each Employment Instruction is reported below:

Employment Instruction	Action
Number 1 – Filling Vacancies	<p>Recruitment and establishment procedures are available on the staff intranet. Industrial Relations

The department is committed to working in partnership with employees and unions as needs arise. During 2016, the department formed the Union Consultative Committee and worked with the unions to ensure a smooth transition for employees through the MoG changes.

OUR PEOPLE

Health and Wellbeing

Work Life Balance

The department offers flexible options that are recognised as a valuable tool in achieving greater productivity, as well as supporting employees to improve the balance they may need between work and personal commitments. These arrangements assist staff in returning from Parental Leave or with carer responsibilities, transitioning to retirement, career breaks, part-time work, working from home and flexible working hours to meet work life balance commitments.

In 2016-17, the department supported 55 flexible working arrangements.

Employee Assistance Program (EAP)

The department supports and promotes employee participation in the EAP.

The EAP is a confidential counselling service for employees and their family members seeking assistance with personal, family and workplace issues that may be affecting their work performance, productivity and wellbeing. The EAP also provides support to managers and employees on specific workplace issues.

In 2016-17, 102 employees and / or their family members, accessed the department's EAP program.

Health and Wellbeing

In August 2016, the Arts and Museums division provided staff with the opportunity to attend workshops aimed at assisting them to manage their physical, psychological and emotional wellbeing. They included the:

Thrive Workshop which facilitated discussions on mental, physical and financial self-management

Streetwise Workshop which provided staff with self-awareness tools to assist in preventing personal risk.

Flu Vaccination Program

The department offered employees the opportunity to participate in its Flu Vaccination Program in Darwin, Katherine and Alice Springs in 2016. A total of 177 staff participated in the program during 2016-17.

Christmas Closedown

In 2016, most of the department closed down for the Christmas / New Year period in accordance with the NTPS 2013-2017 Enterprise Agreement. The three-day closedown between Christmas and New Year allows employees to take leave while the department is closed.

Workplace Health and Safety

As part of the Work Health and Safety framework, committees are established within each departmental division. All divisional committees act as consultative forums which:

- > provide advice on safety matters
- > recommend maintenance and monitoring of programs, measures and procedures relating to workers' health and safety
- > conduct regular workplace inspections when requested, as part of a workplace relocation/redesign or if an incident occurs
- > consider and make recommendations about proposed workplace changes that may affect the health of the workers
- > review hazard and incident report trends and makes recommendations as required
- > keep informed about standards of health and safety.

Work Place Incidents

During 2016-17, the department received five claims for workers' compensation which equated to a total of \$643 282 in claims.

A further \$59 549 was invested in early intervention measures.

03 Corporate Governance

The Northern Territory Government provided \$200 000 towards the production of the feature film Sweet Country which was filmed near Alice Springs and made by Northern Territory filmmakers.

Governance Framework

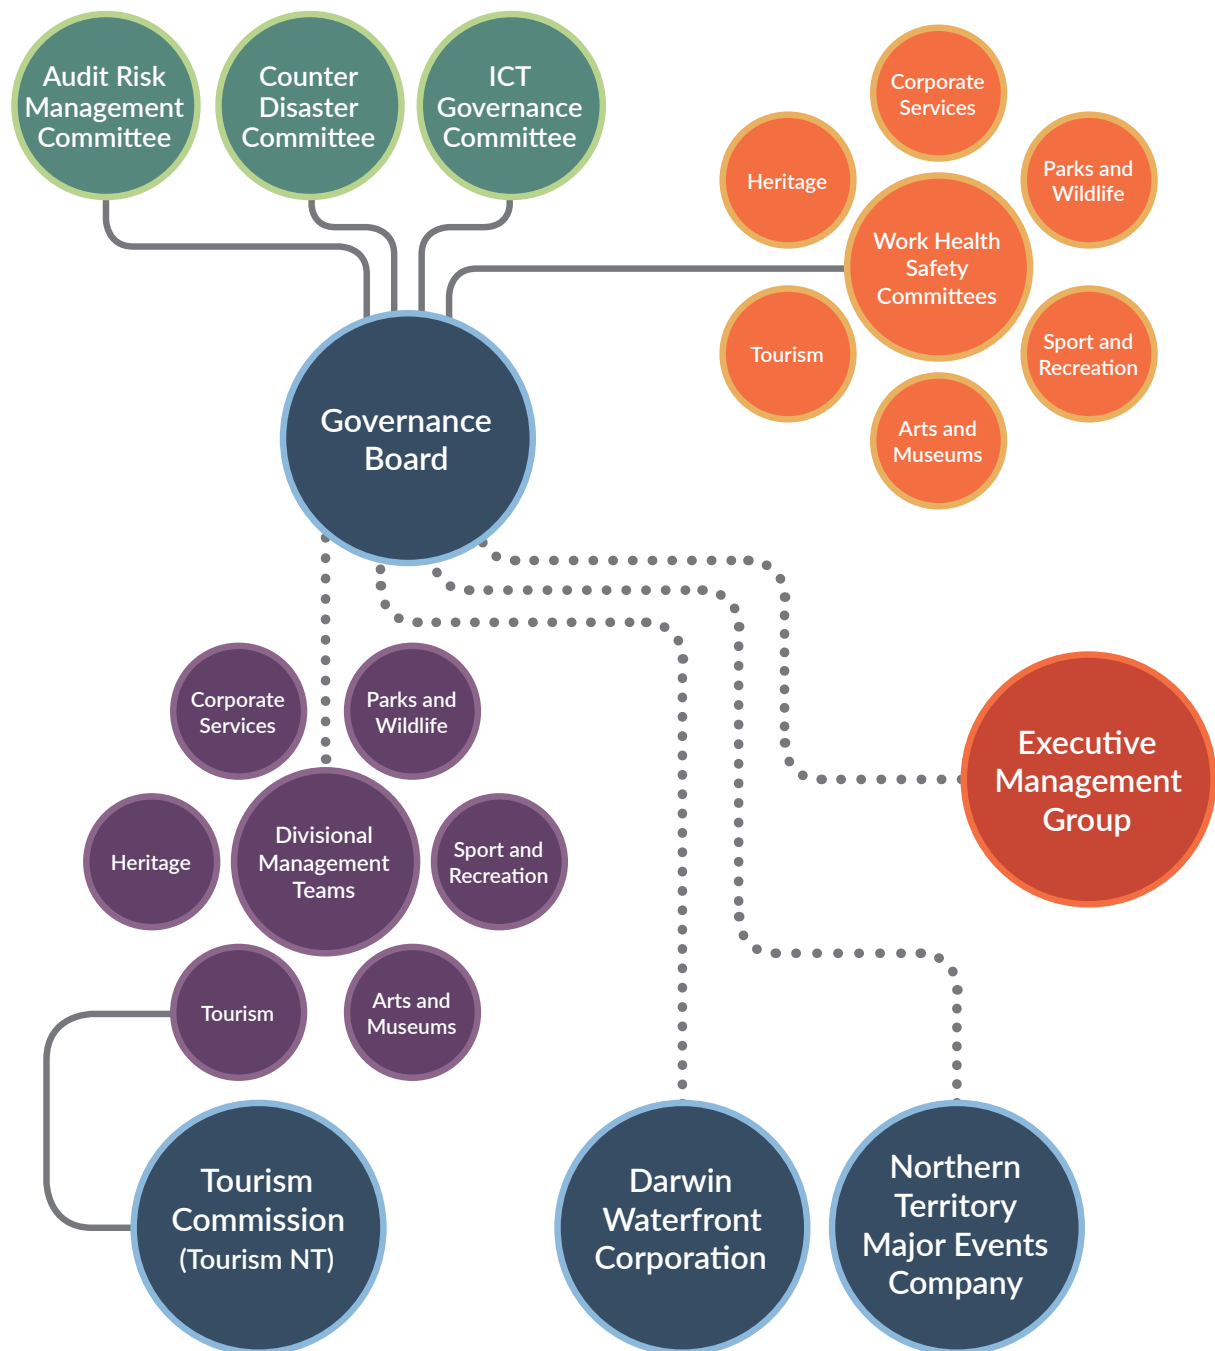

Governance is how our department executives provide strategic direction, achieve objectives and manage risks and resources with accountability. It provides channels for the 'tone at the top' to be instilled throughout the department and to provide overarching leadership and standards to all staff in their everyday work.

The formation of the Department of Tourism and Culture (DTC) resulted in several large and diverse functions from across government coming together to create one department. It is vital that robust and flexible governance arrangements are in place to enable the DTC to work collaboratively across functions to deliver innovative and holistic initiatives and services.

Governance Arrangement

Governance arrangements were established to support the new department, and are illustrated as follows:

Accountability and Standards

To assist the CEO, the Governance Board was established as part of the department's governance arrangements to provide a clear administrative and accountability structure. Several sub-committees of the Governance Board were also established to provide specialised support and advice to the board and CEO.

As the department continues to establish itself and respond to changing needs and environments, governance arrangements and other internal control systems will be updated to ensure the accountability and operating requirements continue to be met.

Executive Committees

Governance Board

The Governance Board provides direct support to the CEO in developing and implementing strategic direction, risk management, department performance and operational delivery.

The board is the department's senior planning and decision-making body. It is responsible for strategic leadership, direction and policy setting, to ensure the department is positioned to deliver its objectives and meet its corporate responsibilities and priorities.

Executive Management Group (EMG)

The EMG is the department's senior review body, and provides operational support to the Governance Board and the CEO to meet strategic responsibilities and objectives.

It also provides a forum through which all department directors can collectively engage with executive directors from across divisions.

Divisional Work Health and Safety Committees

As part of the Work Health and Safety framework, committees are established within each departmental division and act as consultative forums which undertake to:

- > provide advice on safety matters
- > recommend maintenance and monitoring of programs, measures and procedures relating to the workers' health and safety
- > conduct regular workplace inspections including when requested, for a workplace relocation / redesign or if an incident occurs
- > consider and make recommendations about proposed workplace changes that may affect the health of the workers
- > review hazard and incident report trends and makes recommendations as required
- > keep informed about health and safety standards.

Counter Disaster Committee

The Counter Disaster Committee ensures the department meets its legislative responsibilities and obligations and is responsible for the department's emergency management plan. The Counter Disaster Committee leads department activities prior to, and conducts appropriate reviews and evaluation after, an event and also assists in coordinating the department's cyclone plans and monitoring cyclone preparedness and preparations.

Members of the Counter Disaster Committee:

<i>Neva McCartney (Chair)</i>	<i>Caleb Johnston</i>
<i>Ricci McDonald</i>	<i>Valerie Smith</i>
<i>Michael Wells</i>	<i>Mez Korbetis</i>

Audit and Risk Management Committee (ARMC)

The ARMC provides independent advice and assistance to the CEO on the effectiveness of the department's audit, risk management and internal control processes. This assists the CEO to achieve his external accountability and legislative compliance responsibilities, therefore improving the department's governance arrangements.

Members of the ARMC:

<i>Hugo Leschen (Chair)</i>	<i>Mark Ashley</i>
<i>Ian Ford</i>	<i>Debra Kenny</i>
<i>Cathy Fong</i>	

Executive Committees

Information and Communications Technology (ICT) Governance Committee

The Department of Tourism and Culture has a suite of tools available to all employees to assist with guiding, capturing and managing risks.

As part of the department's risk management for the year, strategic risks were reviewed and managed through assessments and treatment actions for key areas. This included looking at the causes and consequences of the identified risks and what internal controls were already in place to manage them. This was all recorded and managed through Strategic Risk Registers by divisional leadership teams. The Audit and Risk Management Committee reviewed the Strategic Risk Registers at each meeting to monitor progress on identified treatments.

Detailed Work Health and Safety (WHS) Risk Registers have also been established and are managed by divisional WHS committees.

Controls and Compliance

Internal Controls

The department has a number of internal control mechanisms in place to mitigate workplace risks. These include:

Delegations

Powers and functions are granted to nominated positions through the *Financial Management Act*, *Public Sector Employment and Management Act*, *Contracts Act* and the *Procurement Act*. Delegations have been put in place to allow the department to operate efficiently while maintaining adequate internal controls. In 2016-17, the following delegations were established:

- > Financial Delegations
- > Human Resource Delegations
- > Procurement and Contract Delegations
- > Instrument of Delegation under the *Contracts Act*
- > Instrument of Delegation for Guarantees and Indemnities

Conflict of Interest

Conflicts of interest include real, perceived or potential conflicts between private interests and official duties or responsibilities. All employees are responsible for declaring and managing any conflicts of interest and must take all reasonable steps to prevent involvement in such conflict.

Outside Employment

Employees must seek approval to undertake outside employment. This is to help identify, manage and mitigate any potential conflicts of interest, where an employee engages in activities which may advance their personal interest at the expense of the department.

Code of Conduct

As a condition of employment, all staff are required to adhere to the NTPS Code of Conduct which outlines the principles, standards and behaviour expected of them. Internal training, such as the Corporate Induction Program, is provided to all employees to ensure they are aware of expected behaviours and responsibilities.

Gifts and Benefits

The department's Gifts and Benefits Policy establishes a common understanding of the appropriate conduct expected of all employees in relation to accepting gifts and benefits. The policy also outlines the appropriate approval and management of gifts and benefits.

Freedom of Information and Privacy

The department adheres to NT Government policies and procedures in place under the *Information Act*. This includes publishing or releasing information and allowing individuals to access records and information held by the department in appropriate circumstances.

Whistle-blowers

In accordance with the *Public Interest Disclosures Act*, staff can report incidents or improper conduct by the department or by an employee. No public interest disclosures regarding the department or its officers were lodged during 2016-17.

Records and Information

Information Requests

The *Information Act* came into effect on 1 July 2003, creating a general right of access to information held by government departments, and limited only in circumstances where the disclosure of certain information would be contrary to the public interest. The Act also protects the privacy of personal information held by the department.

Controls and Compliance

The *Information Act* covers Freedom of Information (FOI) issues, privacy, records and archives management, and affects how the department collects, uses and stores personal and government information.

The Act is designed to protect personal information, promote the free flow of government information, protect public interests and prevent public sector agencies from the unauthorised disclosure of information on individual, private and business interests held by public agencies.

The department is subject to the *Information Act* and is required to meet the obligations placed on it under that Act. Under the *Information Act*, members of the public can gain access to documents or records held by the department unless the document is within an exception or exemption category specified in the legislation.

The *Information Act* also defines strict timeframes for dealing with these requests for information.

Further assistance can be provided by contacting:

FOI Contact Officer
GPO Box 1448
DARWIN NT 0801
Email: dtc.foi@nt.gov.au

During the reporting year, the department received five applications for access to government or personal information under the *Information Act*. Another two applications were carried over from the previous year.

Records Management

The department has adopted record management practices and procedures to ensure compliance with Part 9 of the *Information Act*.

Part 9 of the Act and the Records Management Standards require the department to develop and implement plans and processes to ensure full and accurate records are created, captured, discoverable, secure and disposed of in line with approved Records Disposal Schedules to potentially reduce storage costs.

Additional staff training and support during 2016-17 has resulted in the increased use of and transition to electronic management of records within the department.

Ombudsman Enquiries

The department received no Ombudsman enquiries during the reporting year.

Facilities and Capital Equipment (Capital and current)

Program funds are available to eligible organisations for infrastructure to support the development of appropriate, affordable and accessible sport and active recreation opportunities for Territorians. The funding is available to plan, build new, and improve existing Territory sport and active recreation facilities.

The program's intended outcomes are increased participation opportunities for Territorians, fit-for-purpose facilities that provide safe participation experiences, environmentally and financially sustainable community facilities and well-designed and multi-purpose facilities that encourage inclusiveness and collaboration.

Grass Roots Development Program

Provides organisations with grants for projects that align with the program's two main objectives, which are:

- > to provide opportunities for Territorians to participate in sport and active recreation
- > to strengthen the capability of sport and active recreation organisations to deliver services and programs that foster a more active Territory community.

Heritage Grants

This program primarily supports the ongoing conservation of privately-owned declared heritage places. Funding is also available in the categories of Research and Documentation, and Promotional Projects (including Festivals and Events).

Joint Management Funding

Provides lease payments of about \$1.75 million to Aboriginal land trusts for Aboriginal owned, jointly managed parks. These funds benefit Indigenous people in regional and remote areas. The department also provides \$132 000 each to the Northern and Central Land Councils to support joint management of parks and reserves. The Parks and Wildlife Division spent \$216 517 in 2016-17 to implement the Flexible Employment Program (FEP), a direct employment model enabling employment of 52 Indigenous casual staff. The Commission also employed 13 Indigenous apprentices, four of which were school-based.

1 The decrease is due to the changed funding arrangements for the Sport Voucher Scheme and one-off grants in 2016-17.

2 The increase in 2017-18 is due to additional funding for new projects including the Warren Park redevelopment.

3 The increase in 2017-18 is due to additional funding for new projects including Purkiss Reserve upgrades and Alice Springs sporting facilities and the Urban and Regional Oval Lights Program.

4 The Territory Government is committed to increasing the percentage of Northern Territory Public Sector employees who identify as Aboriginal to 16 per cent by 2020.

5 The variation in 2016-17 mainly reflects the impact of weather conditions.

6 2016-17 visitor estimates were not available at the time of publication due to a three month lag in the national survey data collection. These figures are for the published year ending March 2017.

7 The decrease is due to the focus on NTIS Coach development (with Physiotherapy/Sports Medicine Coordination services no longer provided).

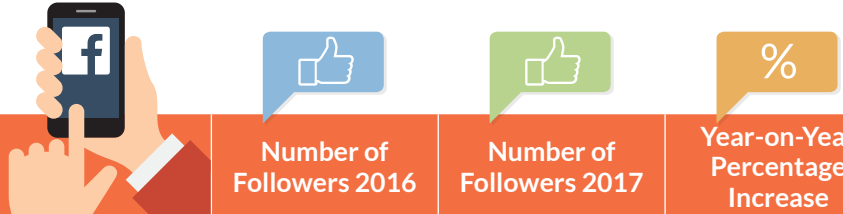

8 Revote works from 2016-17 to 2017-18.

* This figure includes all the major parks plus the George Brown Darwin Botanic Garden. It does not include TWP or ASDP.

Output: Territory Wildlife Parks

Territory Wildlife Parks

Responsible for managing the Territory Wildlife Park at Berry Springs and the Alice Springs Desert Park, supporting the Territory's biodiversity through captive breeding of endangered, rare and threatened species, and educating school children on the benefits of the natural environment.

The key purpose of both parks is to showcase the Territory's unique flora and fauna in a natural environment that is educational, interactive and interesting for the visiting public as a tourist attraction and community asset. The parks also enable people to understand, respect and enjoy the Territory's natural environment.

Significant Achievements

- > The Territory Wildlife Park participated in joint research programs during 2016-17 to reintroduce cane toad-adverse quolls into Kakadu National Park and Indian Island. The scientific results of these programs are currently being written-up
- > Increased visitor numbers and exposure resulted from special activities and events at both Parks. The Alice Springs Desert Park hosted the inaugural Parrtjima – A Festival in Light, and also held a 20th birthday party in March 2017. The Territory Wildlife Park's Christmas Markets and Halloween Twilight Night were among its most successful events for the year with about 1500 visitors attending each event
- > Both parks were inspected and audited by the Zoo and Aquarium Association of Australasia, and received accreditation
- > Both parks continued to build relationships with local community groups, e.g. welfare recipient work programs, Greening Australia and other environmental interest groups, various charitable and sporting organisations, corporate social responsibility programs and other government departments

- > Both parks continued to develop activities in line with the 'Healthy Parks, Healthy People' initiative.
- > Visitor numbers and revenue increased for both parks over the past 12 months
- > Both parks have increased activity on social media, and received excellent coverage from conventional media including local TV, radio stations, and local newspapers
- > Upgrading of the key Desert Rivers Shelter facility, which includes a new toilet block, will enable the Alice Springs Desert Park to develop new and improved products and services and provide for greater use of the venue.

Strategies and plans being developed or under review:

- > The Territory Wildlife Park is developing a Master Plan to guide development over the next 10 years
- > New, contemporary websites are being developed for both parks.

Output: Territory Wildlife Parks

Looking forward (next 12 months)

- > Work is being undertaken at the Territory Wildlife Park to improve visitor flow through the park, and visitor amenity at the entry, main station, and Woodland Walk. New art installations will be unveiled to enhance the art trail experience and a retrospective public exhibition of the Artist-in-the-Park program participant's work will be held in late 2017
- > New features planned at the Territory Wildlife Park Aquarium include a 'Croc Headquarters (HQ)', jelly fish and seahorse exhibits, and a refurbished large saltwater crocodile exhibit. A new buffalo exhibit will be opened, 10 years after the buffalo were originally removed from the park. A new animal encounter collection comprising a range of hand-raised animals will allow for more on-and-off-site animal interactions and educational experiences
- > The Alice Springs Desert Park will have Wi-Fi delivered to key locations, providing coverage for almost all areas within the core business area
- > The Alice Springs Desert Park will again host Parrtjima "A Festival in Light" from 22 September to 1 October 2017
- > The "old entry station" will become a conferencing centre to improve the desert park's capacity to value-add to such facilities within the Alice Springs region
- > A new desert park playground will add an element of enjoyment for visiting families
- > Develop a 10 year master plan for the Territory Wildlife Park which will provide a road map for the future development of the Park.

05 Our Visitors

During the year to March 2017, overnight expenditure in the Northern Territory reached \$2.4 billion, a 4.6% year-on-year increase. Contributing to this positive result was the increase in spend by holiday makers, up 16% to \$1.1 billion.

Despite the strong increases in visitor spend, the number of business visitors to the Territory declined 15% for the year to March 2017, impacted by a slowing resources sector and major projects nearing final construction phase. This reduced business travel offset gains from the holiday segment, resulting in a 5.2% decline in overall visitor numbers year on year to the Territory, to 1.77 million visitors.

Our Visitors

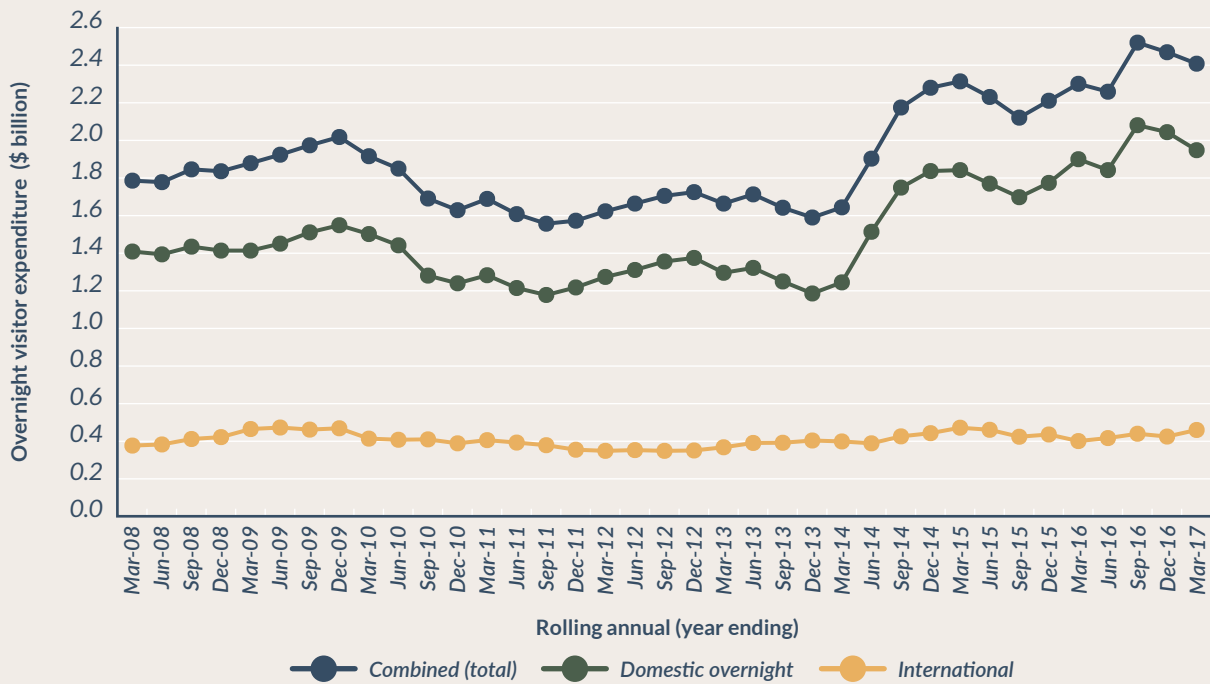

The number of international holiday visitors to the Territory increased by 7.7% to reach 256 000 visitors in the year ending March 2017.

Our key target markets of interstate and international holiday visitors had a combined increase of 5.5 percent.

OUR VISITORS

Parks and Reserves

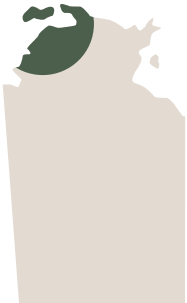

Visitor numbers to major parks and reserves increased for the sixth consecutive year, going up by 4% across the Territory. Central Australian park visits increased by 13%, those to Top End parks went up by 2% and Savannah-Gulf numbers remained stable. Central Australia's increase was larger than normal due to the Alice Springs Telegraph Station being reported for the first time as a whole-of-park (WOP) figure. This year for the first time, visitors were able to enter the park via the Riverside Walk, a dual walking-cycling path linking the historic precinct with the Alice Springs CBD.

In 2016-17, over 3.7 million people visited our parks and reserves.

Visitor Experiences

Araluen Arts Centre

The Araluen Arts Centre continued to provide Central Australian residents and visitors with a vast array of exhibitions, performances and screenings during 2016-17, some of them specific to the region and others available throughout Australia. Visitors to the Araluen Arts Centre galleries in 2016-17 increased by 25% on the previous year, and patrons to the Centre's theatre were up by 20%. This significant rise in numbers was due primarily to the arts centre's strong program and community engagement across the period.

- > Number of visitors: 74 320
- > Number of events: 139 delivered (including 15 public / community engagement events as well as exhibitions, performances and cinema) and 32 further supported events.

History NT

History NT held key events and programs under the banner of *The Territory Remembers* throughout 2016-17, to attract, inspire, educate and engage audiences about the Territory's WWII history.

- > Number of visitors: 23 643 (excluding show circuit)
- > Number of visitors: 86 000 approx (including show circuit)
- > Number of events: 31

Northern Territory Archives Service

The Northern Territory Archives Service held talks and presentations in 2016-17 to celebrate the Northern Territory's heritage and culture.

- > Number of visitors: 992
- > Number of researchers: 1 144
- > Number of events: 10 talks

Northern Territory Library

The Northern Territory Library hosted 37 events during 2016-17, as well as three major exhibitions and eight smaller displays.

- > Number of visitors 72 129

Commercial operators also offer visitor experiences in our parks and reserves. There were 153 tourism businesses operating in the park estate during 2016-17. Visitor-related development highlights included: NT Air introducing scenic flights from within Litchfield National Park and operating its shopfront in the Wangi Centre.

Hunter Safaris taking up a lease option within Harrison Dam Conservation Reserve to continue its Adelaide River Cruises.

Planning began with traditional owners and the Boards commenced to establish two new tourism products in Nitmiluk National Park including: a 2 day/1 night glamping experience to Biddlecombe Cascades and the establishment of a Cultural Meeting Place.

New facilities and visitor experiences offered at the Territory Wildlife Park in 2016-17:

- > Ongoing additions to the Art Trail featured two joint park / community projects:
 - The Tactile (Crochet and Felt) Coral Reef, displayed at the aquarium and demonstrating the effects of coral bleaching on tropical reefs
 - Atlas Moth (Felting) displays and interpretation, housed at the Nocturnal House and showing the lifecycle of the Atlas Moth
- > Two new wildlife experiences were introduced, including a VIP Wild Encounter allowing Nocturnal House, visitors to feed sugar gliders, tawny frogmouths and a spectacled hare wallaby for a cost of a small fee, and a Dingo talk and Archerfish experience

Visitor Experiences

- > Improvements to visitor amenities included completion of new lighting at the Nocturnal House so visitors can see animals in their enclosures more clearly, completion of all-weather pathways to Goose Lagoon and the Flight Deck, additions to the Woollybutts Campground nature play areas, and new food display/serveries at the café
- > The Bushwalking Babes experience was refreshed and relaunched, with memberships and merchandise, as part of the Healthy Parks, Healthy People initiative.

New facilities and visitor experiences offered at the Alice Springs Desert Park in 2016-17:

- > The Desert Rivers facilities were upgraded to include solar bollard lighting on the pathway from the cinema entry
- > The inaugural Parrtjima- A festival in Light event was staged from 23 September to 2 October 2016, with an estimated 15 000 people attending over the 10 days
- > A rare and endangered species exhibition was curated and displayed within the park's entry foyer
- > The park celebrated its 20th birthday on 9 April 2017 attracting some 3500 visitors to an open day featuring face painting, live entertainment, special guide presentations and a birthday cake
- > The park conducted a special tour by our nursery manager on 31 July 2016 as part of National Tree Day
- > A Nick Pike art exhibit was presented in the entry foyer.

Visitor Surveys

The Alice Springs Desert Park maintained an ongoing survey throughout 2016-17 and the Territory Wildlife Park conducted a survey during August 2016. More than 580 surveys were completed between the two parks.

One peak season survey was conducted at Litchfield National Park in June 2017 and part of a peak season survey was conducted at Tjoritja / West MacDonnell National Park in June 2017. More than 400 surveys were completed between the two parks.

Surveys sought feedback on the demographics of park visitors, what activities they were participating in and how long they were staying in the parks on their visits. They were also asked for details of what they enjoyed most and least about their visit, and what park services and infrastructure were important to them.

Visitor Satisfaction

In 2016-17, the department maintained its 15 TripAdvisor Certificates of Excellence within its top 22 parks and reserves. No new certificates were achieved. The Territory Wildlife Park, Alice Springs Desert Park and George Brown Darwin Botanic Gardens also maintained their Certificates of Excellence and all the department's top parks were rated at between four or above out of a possible score of five. The average TripAdvisor satisfaction percentage of all top Territory parks was 91% and the total TripAdvisor reviews increased by 12% compared to 2015-16.

Both the Alice Springs Desert Park and Territory Wildlife Park scored a 93% satisfaction rating. Tjoritja / West MacDonnell and Litchfield National Parks achieved a 91% satisfaction and George Brown Darwin Botanic Gardens received a 95% satisfaction rating.

Visitor Experiences

Visitor Activities

Our parks and reserves provide for wide-ranging recreational activities, one of which is the increasingly popular mountain bike riding, as recognised in the Mountain Biking in the Northern Territory Master Plan. In 2016-17, as part of the plan's implementation process, the department:

- > engaged planning consultants, Destination Trails Pty Ltd, to develop the Alice Springs Destination Development Plan
- > contracted an Alice Springs company to upgrade and carry out maintenance work on various trails within the Alice Springs Telegraph Station mountain bike trail network
- > opened new mountain bike tracks at Lee Point in Casuarina Coastal Reserve in late 2016.

In 2017-18, the department will continue to implement the Master Plan by:

- > releasing a consultancy for the development of a Territory-wide Mountain Bike Signage Guide. The consultancy will provide a production-ready template for all signage required for Territory mountain bike projects
- > undertaking mountain bike track works including trail upgrades, development and repairs and maintenance on Crown Land and at Tjoritja / West MacDonnell National Park and Alice Springs Telegraph Station Historical Reserve to enhance the existing mountain bike network
- > developing a Cycling Experience Concept Plan for Tjoritja / West MacDonnell National Park, to include nature-based adventure cycling experiences accessible within one or two hours of Alice Springs
- > working on concept planning for mountain bike experiences in Litchfield and Nitmiluk National Parks. This will involve a feasibility analysis and ground-truthing of proposed trails
- > upgrading and re-developing mountain bike trails in Charles Darwin National Park and Casuarina Coastal Reserve.

Improvements to Visitor Facilities

The following infrastructure developments took place in 2016-17 to improve the visitor experience in parks and reserves:

- > A new information shelter was constructed in Watarrka National Park, providing walks and safety information at the start of the Rim Walk, Kings Creek Walk and Giles Track. The shelter won awards for urban design and steel architecture at the NT Architecture Awards. The structure interprets the story of *minga* (ants) moving through the country, inspired by traditional owners watching visitors walking the track
- > The Pound Walk at Ormiston Gorge in Tjoritja / West MacDonnell National Park was recently upgraded. This walking track takes visitors through the gorge and provides stunning views of the pound
- > A new shelter was installed and the walking track upgraded in Holmes Jungle Nature Park
- > The popular Jasper Gorge campground in Judbarra National Park was upgraded with a formalised campground and new toilet block installed
- > Planning began for a \$10 million, three-year capital works program to be carried out in conjunction with Jawoyn traditional owners. First year priorities include replacing the tour boat jetty and road access to the cultural meeting place, and upgrading pathways between the First and Second Gorges and roads to support Cascades experience
- > New campgrounds were completed along the Jatbula Trail to increase trail visitor capacity.

Visitor Experiences

In 2017-18, these further infrastructure works will be carried out on Territory parks and reserves:

- > More shelters will be installed along the Larapinta Trail
- > The viewing platform in Watarrka National Park will be replaced
- > Campground will be upgraded at Surprise Creek in Litchfield National Park
- > The car park, walking tracks, access roads, toilets, interpretation and viewing areas at Karlu Karlu Conservation Reserve will be upgraded
- > Campground host facilities will be upgraded to provide services to attract hosts for effective campground management in key locations
- > A new terraced display area depicting Arnhem Land and Jawoyn escarpment plants will be created at George Brown Darwin Botanic Gardens.

Financial Statement Overview

The Department of Tourism and Culture's Financial Statement Overview

Financial Statements

The Department comprises two reporting entities for the purposes of the *Financial Management Act* (the Act):

- > Department of Tourism and Culture (the Department)
- > Territory Wildlife Parks, a Government Business Division (TWPS)

The Act requires the Department to prepare separate financial statements for each entity for inclusion in the Annual Report.

This section of the report provides an analysis of the financial outcome of the Department of Tourism and Culture for the year ended 30 June 2017.

Financial Statement Overview

The Department of Tourism and Culture was created a result of an Agency Administration Order executed on 12 September 2016 that amalgamated the below former Departments' and work units:

- > Department of Arts and Museums
- > Department of Sport and Recreation
- > Parks and Wildlife Commission of the Northern Territory
- > Tourism NT
- > The Heritage function from the former Department of Lands, Planning and Environment
- > A portion of the Corporate Services function from the former Department of Land Resource Management

The Department also became responsible for commercial organisations being:

- > Responsibility for funding the Northern Territory Major Events Company
- > Responsibility for funding the Darwin Waterfront Corporation

The Department has the following outputs:

- > Tourism and Culture; to market the Territory to stimulate interest and desire to travel to the Territory; protect, conserve and provide access to our major heritage and cultural collections; invest and develop the sport and recreation sectors and protect the Northern Territory's parks and native wildlife
- > Commercial Organisations; to support the operations of the Darwin Waterfront Corporation and Northern Territory Major Events Company
- > Corporate and Governance; to provide a range of corporate and governance services to support the agency's functions

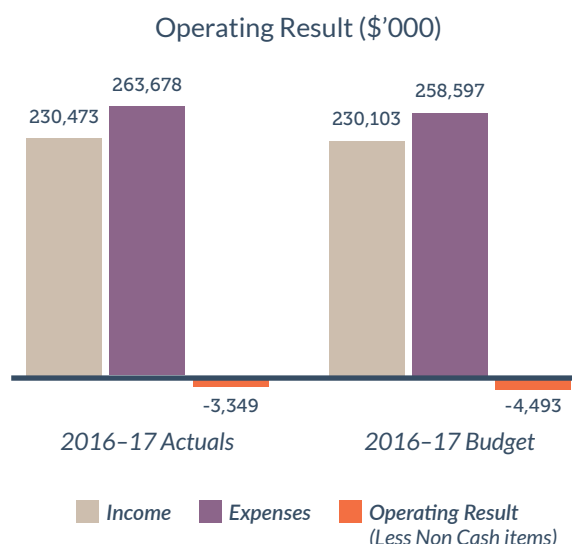

Financial Performance

In 2016-17, the Department reported a net loss of \$33.2 million and, after adjusting for \$29.9 million of non-cash items, made a cash loss of \$3.4 million compared to a budgeted loss of \$4.5 million.

The saving of \$1.1 million predominately relates to 2016-17 budgeted projects which will be finalised in 2017-18. These projects are:

- > \$0.3 million for Northern Territory Show Council showgrounds review
- > \$0.3 million for Art Trails
- > \$0.4 million for the Territory Remembers Program

The operating result is shown graphically below.

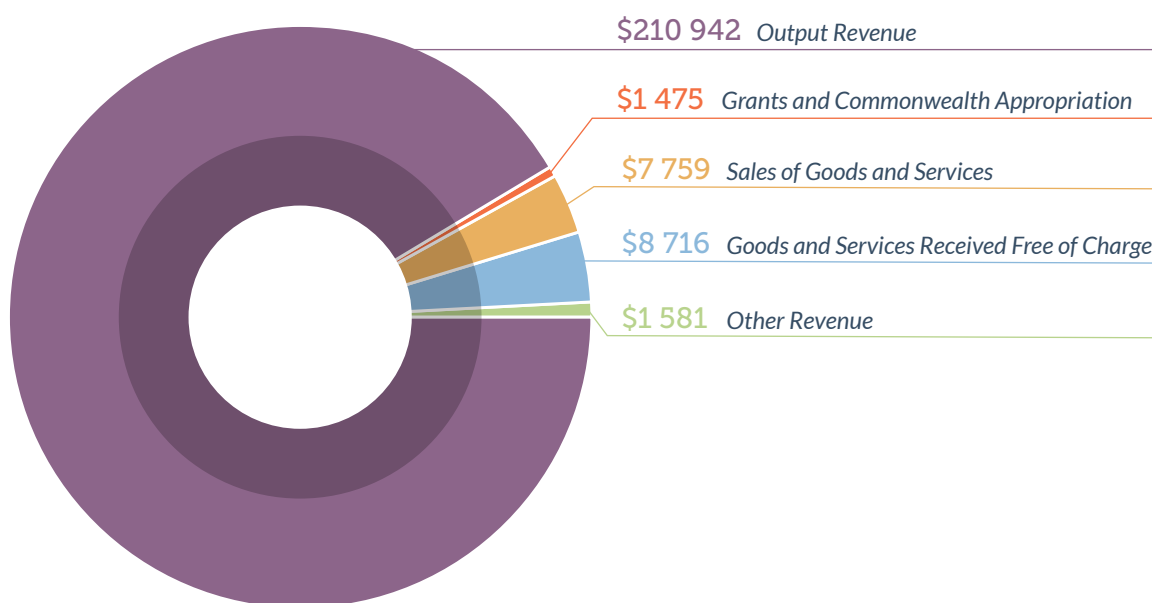

The Department of Tourism and Culture's Financial Statement Overview

Income

The Department received income of \$230.5 million in 2016-17, \$0.4 million lower than budget.

2016-17 Income by Source (\$'000)

The Department is funded primarily through Northern Territory Parliamentary appropriation. The next major source of income is charges for our goods and services, and a small income from grant revenue and Commonwealth appropriation. Notional revenue for corporate services provided by the Department of Corporate and Information (DCIS) is also recognised.

Output Revenue

In 2016-17, output revenue of \$210.9 million was received in accordance with budget, representing 91.5 percent of total revenue.

Sale of Goods and Services

Income from the sale of goods and services in 2016-17 totalled \$7.8 million, \$0.3 million more than budget. The increase reflects the recognition of utility expense recoveries from third parties.

Grants and Commonwealth Appropriation

In 2016-17, \$1.5 million was received for externally funded projects including:-

- > Tourism Demand Driver project \$0.7 million to support delivery of infrastructure projects that contribute to Tourism 2020 outcomes
- > Red Centre Biodiversity Fund \$0.2 million for protecting and improving the biodiversity of the Red Centre's national landscape
- > Regional Arts Fund \$0.3 million an initiative supporting sustainable cultural development in regional and remote communities in Australia supporting participation in, and access to the arts, and encouraging greater private sector support for the arts
- > McArthur River Mine Rock Art \$0.1 million to protect aboriginal rock art and cultural sites within the Limmen National Park
- > Alice Springs Town Council collections management \$0.1 million to manage their art collection

The Department of Tourism and Culture's Financial Statement Overview

Goods and Services Received Free of Charge

In 2016-17, goods and services received free of charge totalled \$8.7 million, \$8.5 million from the Department of Corporate Information Services (DCIS) for notional goods and services received and \$0.2 million received through a Cooperative Marketing Agreement with Singapore Airline Ltd and SilkAir Pty Ltd.

There is a corresponding expense, resulting in a net nil effect to the department operating result.

Goods and services received free of charge from DCIS allow the Department to bring to account the full cost of corporate services it requires to operate.

The table below depicts the Departments income in its first year of operation.

Income Type	Actual 2016-17 \$'000	Budget 2016-17 \$'000	Variance \$'000
Output Revenue	210 942	210 942	-

Other Revenue	1 581	870	711
Total Income	230 473	230 103	370

Expenses

The Department incurred \$263.7 million in expenses during 2016-17. Expenditure was \$5.1 million more than budget.

2016-17 Expenses by Category (\$'000)

The Department of Tourism and Culture's Financial Statement Overview

Payments to employees and purchase of goods and services account for 42.1 percent and grants and subsidies accounting for a further 39.5 percent of the Departments outlays. Repairs and maintenance is the other major Department expense, with depreciation, free of charge expenditure and capital works that did not meet capitalisation requirements representing non-cash transactions.

Employee Expenses

In 2016-17, employee expenses were in line with budget and totalled \$52.1 million, representing 19.8 per cent of total expenditure.

Goods and Services Expenses

Actual spend on the purchase of goods and services in 2016-17 was \$59.0 million, \$2.2 million less than budget. This relates to projects that were not finalised in 2016-17 and will now be completed in 2017-18, the remaining budget was utilised for the payment of grants.

Grants and Subsidies

Grants of \$104.2 million were distributed in 2016-17, \$2.5 million more than budget. This increase was funded with budget capacity available in other expenditure categories. The Departments full list of grants can be found in the appendices of this report. Significant grants payments include:-

- > \$19.6 million to Darwin Waterfront Corporation
- > \$18.7 million to Northern Territory Major Events Company
- > \$7.8 million for the community service obligation payment to the Territory Wildlife Parks for the delivery of non-commercial functions
- > \$7.8 million to the Museum and Galleries of the Northern Territory
- > \$5.4 million for the Sports Voucher program

Repairs and Maintenance Expenses

Actual repairs and maintenance expenditure was \$24.1 million, \$5.1 million over budget. This includes \$14.6 million of capital works for assets that did not meet the required capitalisation criteria, including expenditure on external third party owned assets. These assets include:

- > \$6.3 million upgrade of Alice Springs netball facilities
- > \$3.8 million infrastructure upgrades to Motor Sports Northern Territory facilities across the Northern Territory
- > \$1.8 million for recreation oval upgrades in remote communities

Depreciation

Depreciation is the allocation of an asset's cost over its useful life. In 2016-17 depreciation was in line with budget totalling \$15.2 million.

Loss on Disposal of Assets

In 2016-17 a \$0.1 million expense was recorded to reflect the gifting of a public artwork to a remote community.

The graph on page 94 depicts the Departments expenditure in its first year of operation. Overall the Department managed its expenditure well with the main variance being the non-cash write off of assets not meeting the capitalization criteria.

Balance Sheet

The Balance Sheet provides a summary of the Department's balances at the end of the financial year for assets, liabilities and equity.

The balances reported are the net worth to Government of the Department's asset holdings (what is owned) against liabilities (what is owed). The below graph depicts the net asset position at the close of 2016-17.

The Department of Tourism and Culture's Financial Statement Overview

Assets

The Department's assets at 30 June 2017 totalled \$598.9 million.

The balance of assets consists of:-

- > Cash balances of \$8.3 million, representing cash held in a financial institution and, petty cash and floats
- > Receivables of \$2.4 million representing the amount that is owed to the Department for goods and services provided and delivered, and goods and service tax refunds receivable from the Australian Tax Office
- > Inventory of \$0.3 million representing stock on hand for sale and fuel on remote parks
- > Prepaid expenses of \$0.9 million representing expenses that have been paid before the good or service was received or provided
- > Property, plant and equipment of \$467.7 million and heritage and cultural assets of \$119.3 million

Liabilities

The Department's liabilities total \$12.4 million as at 30 June 2017.

The balance of liabilities consists of:-

- > Deposits held of \$0.8 million to recognise the liability for money held on behalf of third parties until made available for disbursement of refund, such as external parties share of revenue collected by the Department, security deposits, and gift fund accounts held on behalf of the community
- > Payables of \$4.7 million representing the amount owed to creditors for goods and services purchased and received
- > Provisions for employee entitlements of \$6.7 million made up of recreation leave, leave loading and leave fares that are to be paid in the future; and
- > Unearned revenue of \$0.2 million representing the amount received for services not yet provided.

Equity

The balances reported are the net worth to Government of the Department's asset holdings (what is owned) against liabilities (what is owed).

The Department's equity as at 30 June 2017 is \$586.5 million. This result is a combination of:

- > Net assets transferred in on the Departments' creation of \$594.7 million
- > A transfer in of \$24.1 million of completed infrastructure works
- > Land transfers of \$0.6 million
- > Capital appropriation of \$0.3 million to purchase assets; offset by
- > The operating loss for 2016-17 financial year of \$33.2 million.

For the year ended 30 June 2017

1. Objectives and Funding

The primary objective of the Department of Tourism and Culture (“the Department”) is to increase visitation to the Northern Territory, while protecting the Territory’s unique parks, native wildlife and art, cultural and heritage assets. The Department also aims to increase life-long involvement in sport and recreation activities by Territorians.

The Department is predominantly funded by, and dependent on, the receipt of Parliamentary appropriation. The financial statements encompass all funds through which the department controls resources to carry on its functions and deliver outputs. For reporting purposes, outputs delivered by the department are summarised into the following output groups:

- > Tourism and Culture
- > Commercial Organisations
- > Corporate and Governance

Note 3 provides summary financial information in the form of a Comprehensive Operating Statement by output.

Notes to the Financial Statements

For the year ended 30 June 2017

2. Statement of Significant Accounting Policies

(a) Statement of Compliance

The financial statements have been prepared in accordance with the requirements of the *Financial Management Act* and related Treasurer's Directions. The *Financial Management Act* requires the Department of Tourism and Culture to prepare financial statements for the year ended 30 June based on the form determined by the Treasurer. The form of the department's financial statements is to include:

- (i) a Certification of the Financial Statements
- (ii) a Comprehensive Operating Statement
- (iii) a Balance Sheet
- (iv) a Statement of Changes in Equity
- (v) a Cash Flow Statement
- (vi) applicable explanatory notes to the financial statements.

(b) Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting, which recognises the effect of financial transactions and events when they occur, rather than when cash is paid out or received.

Except where stated, the financial statements have also been prepared in accordance with the historical cost convention.

The financial statements are also consistent with the requirements of Australian Accounting Standards. The effects of all relevant new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are effective for the current annual reporting period have been evaluated.

The following new and revised accounting standards and interpretations were effective for the first time in 2016-17:

AASB 124 Related Party Disclosures

This standard applies to not-for-profit sector for the first time in 2016-17. The accounting standard requires disclosures about the remuneration of key management personnel, transactions with

related parties, and relationships between parent and controlled entities. For any such transactions, disclosures will include the nature of the related party relationship, as well as information about those transactions' terms/conditions and amounts, any guarantees given/received, outstanding receivables/payables, commitments, and any receivables where collection has been assessed as being doubtful.

Several other amending standards and AASB interpretations have been issued that apply to the current reporting periods, but are considered to have no impact on public sector reporting.

At the date of authorisation of the financial statements, the following standards and interpretations were in issue but are not yet effective and are expected to have a potential impact on future reporting periods:

AASB 16 Leases

AASB 16 Leases is effective for annual reporting periods beginning on or after 1 January 2019 and will be reported in these financial statements for the first time in 2019-20. When the standard is effective it will supersede AASB 117 Leases and requires the majority of leases to be recognised on the balance sheet.

For lessees with operating leases, a right-of-use asset will now come onto the balance sheet together with a lease liability for all leases with a term of more than 12 months, unless the underlying assets are of low value. The Comprehensive Operating Statement will no longer report operating lease rental payments, instead a depreciation expense will be recognised relating to the right-to-use asset and interest expense relating to the lease liability.

While for lessors, the finance and operating lease distinction remains largely unchanged. For finance leases, the lessor recognises a receivable equal to the net investment in the lease.

Lease receipts from operating leases are recognised as income either on a straight-line basis or another systematic basis where appropriate.

Notes to the Financial Statements

For the year ended 30 June 2017

It is expected that approximately \$2 million in operating lease commitments will be required to be recognised in the balance sheet through a lease liability and corresponding right to use asset from 2019-20 in accordance with AASB 16 Leases. In the comprehensive operating statement the operating lease expense will be replaced with a depreciation expense relating to the right to use asset and interest expense relating to the lease liability. These cannot be quantified at this time.

AASB 1058 Income for not-for-profit entities and AASB 15 Revenue from contracts with customers

AASB 1058 Income for Not-for-Profit Entities and AASB 15 Revenue with Contracts with Customers are effective for annual reporting periods beginning on or after 1 January 2019 and will be reported in these financial statements for the first time in 2019-20.

Under the new AASB 1058 Income for Not-for-Profit Entities, revenue from grants and donations will be recognised when any associated performance obligation to provide goods or services is satisfied, and not immediately upon receipt as currently occurs. Consequently, more liabilities will be recognised in the balance sheet after adoption of this standard.

AASB 1058 clarifies and simplifies income-recognition requirements that apply to not-for-profit entities in conjunction with AASB 15 Revenue from Contracts with Customers.

While the full impacts are yet to be determined, potential impacts identified include:

Grants received to construct or acquire a non-financial asset will be recognised as a liability, and subsequently recognised as revenue as the performance obligations under the grant are satisfied. At present, such grants are recognised as revenue on receipt.

Grants with an enforceable agreement and sufficiently specific performance obligations will be recognised as revenue progressively as the associated performance obligations are satisfied. At present, such grants are recognised as revenue on receipt.

Grants that have an enforceable agreement but no specific performance obligations but have restrictions on the timing of expenditure will also continue to be recognised on receipt as time restriction on the use of funds is not sufficiently specific to create a performance obligation.

Grants that are not enforceable and/or not sufficiently specific will not qualify for deferral, and continue to be recognised as revenue as soon as they are controlled.

Several other amending standards and AASB interpretations have been issued that apply to future reporting periods, but are considered to have limited impact on future financial reporting.

(c) Reporting Entity

The financial statements cover the department as an individual reporting entity.

The Department of Tourism and Culture ("the Department") is a Northern Territory department established under the *Interpretation Act Administrative Order*.

The principal places of business of the department is:

Level 8, Charles Darwin Centre
19 The Mall
DARWIN NT 0800

(d) Agency and Territory Items

The financial statements of the Department include income, expenses, assets, liabilities and equity over which the department has control (Agency items). Certain items, while managed by the department, are controlled and recorded by the Territory rather than the department (Territory items). Territory items are recognised and recorded in the Central Holding Authority as discussed below.

Central Holding Authority

The Central Holding Authority is the 'parent body' that represents the Government's ownership interest in Government-controlled entities.

Notes to the Financial Statements

For the year ended 30 June 2017

The Central Holding Authority also records all Territory items, such as income, expenses, assets and liabilities controlled by the Government and managed by departments on behalf of the Government. The main Territory item is Territory income, which includes taxation and royalty revenue, Commonwealth general purpose funding (such as GST revenue), fines, and statutory fees and charges.

The Central Holding Authority also holds certain Territory assets not assigned to departments as well as certain Territory liabilities that are not practical or effective to assign to individual departments such as unfunded superannuation and long service leave.

The Central Holding Authority recognises and records all Territory items, and as such, these items are not included in the department's financial statements. However, as the department is accountable for certain Territory items managed on behalf of Government, these items have been separately disclosed in Note 27 Schedule of Administered Territory Items.

(e) Comparatives

The Department of Tourism and Culture was established under the Administrative Arrangements Order on 12 September 2016 and is an amalgamation of the previous Department of Sport and Recreation, the Department of Arts and Museums, Parks and Wildlife Commission of the Northern Territory and Tourism NT, as well as the Heritage division. As such there are no comparatives for the 2015-16 year.

(f) Presentation and Rounding of Amounts

Amounts in the financial statements and notes to the financial statements are presented in Australian dollars and have been rounded to the nearest thousand dollars, with amounts less than \$500 being rounded down to zero. Figures in the financial statements and notes may not equate due to rounding.

(g) Changes in Accounting Policies

There have been no changes to accounting policies adopted in 2016-17 as a result of management decisions.

(h) Accounting Judgements and Estimates

The preparation of the financial report requires the making of judgements and estimates that affect the recognised amounts of assets, liabilities, revenues and expenses and the disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements and estimates that have significant effects on the financial statements are disclosed in the relevant notes to the financial statements.

(i) Goods and Services Tax

Income, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except where the amount of GST incurred on a purchase of goods and services is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Balance Sheet.

Notes to the Financial Statements

For the year ended 30 June 2017

Cash flows are included in the Cash Flow Statement on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the ATO are classified as operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable or payable unless otherwise specified.

(j) Contributions by and Distributions to Government

The department may receive contributions from Government where the Government is acting as owner of the department. Conversely, the department may make distributions to Government. In accordance with the *Financial Management Act* and Treasurer's Directions, certain types of contributions and distributions, including those relating to administrative restructures, have been designated as contributions by, and distributions to, Government. These designated contributions and distributions are treated by the department as adjustments to equity.

(k) Prepayments

Prepayments represent payments in advance of receipt of goods and services or that part of expenditure made in one accounting period covering a term extending beyond that period.

(l) Leased Assets

Leases under which the department assumes substantially all the risks and rewards of ownership of an asset are classified as finance leases. Other leases are classified as operating leases. The entity does not have any assets under a finance lease.

Operating Leases

Operating lease payments made at regular intervals throughout the term are expensed when the payments are due, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased property.

Income

Income encompasses both revenue and gains.

Income is recognised at the fair value of the consideration received, exclusive of the amount of GST. Exchanges of goods or services of the same nature and value without any cash consideration being exchanged are not recognised as income.

Grants and Other Contributions

Grants, donations, subsidies, gifts and other non-reciprocal contributions are recognised as income when the entity obtains control over the assets comprising the contributions. Control is normally obtained upon receipt.

Contributions are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

Appropriation

Output Appropriation is the operating payment to each department for the outputs they provide and is calculated as the net cost of department outputs after taking into account funding from department income. It does not include any allowance for major non-cash costs such as depreciation.

Commonwealth appropriation follows from the Intergovernmental Agreement on Federal Financial Relations, resulting in Special Purpose Payments (SPPs) and National Partnership (NP) payments being made by the Commonwealth Treasury to state treasuries, in a manner similar to arrangements for GST payments. These payments are received by the Department of Treasury and Finance on behalf of the Central Holding Authority and then on passed to the relevant departments as Commonwealth appropriation.

Revenue in respect of appropriations is recognised in the period in which the department gains control of the funds.

Sale of Goods

Revenue from the sale of goods is recognised (net of returns, discounts and allowances) when:

- > the significant risks and rewards of ownership of the goods have transferred to the buyer;
- > the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- > the amount of revenue can be reliably measured;
- > it is probable that the economic benefits associated with the transaction will flow to the department; and
- > the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of Services

Revenue from rendering of services is recognised by reference to the stage of completion of the contract. The revenue is recognised when:

- > the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- > it is probable that the economic benefits associated with the transaction will flow to the entity.

Goods and Services Received Free of Charge

Goods and services received free of charge are recognised as revenue when a fair value can be reliably determined and the resource would have been purchased if it had not been donated. Use of the resource is recognised as an expense.

Disposal of Assets

A gain or loss on disposal of assets is included as a gain or loss on the date control of the asset passes to the buyer, usually when an unconditional contract of sale is signed. The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal. Refer also to Note 6.

Administered Income

The department collects royalties on behalf of the Territory. The department does not gain control over assets arising from these collections, consequently no income is recognised in the departments financial statements. Accordingly, these amounts are disclosed as income in Note 27 Schedule of Administered Territory Items.

Receivables include accounts receivable and other receivables and are recognised at fair value less any allowance for impairment losses.

The allowance for impairment losses represents the amount of receivables the department estimates are likely to be uncollectible and are considered doubtful. Analysis of the age of the receivables, which are past due as at the reporting date, are disclosed in an aging schedule under credit risk in Note 22 Financial Instruments. Reconciliation of changes in the allowance accounts is also presented.

Accounts receivable are generally settled within 30 days.

Inventories

Inventories include assets held either for sale (general inventories) or for distribution at no or nominal consideration in the ordinary course of business operations.

General inventories are valued at the lower of cost and net realisable value, while those held for distribution are carried at the lower of cost and current replacement cost. Cost of inventories includes all costs associated with bringing the inventories to their present location and condition. When inventories are acquired at no or nominal consideration, the cost will be the current replacement cost at date of acquisition.

The cost of inventories are assigned using a mixture of first-in, first out or weighted average cost formula or using specific identification of their individual costs.

Inventory held for distribution is regularly assessed for obsolescence and loss.

Notes to the Financial Statements

For the year ended 30 June 2017

Acquisitions

All items of property, plant and equipment with a cost, or other value, equal to or greater than \$10 000 are recognised in the year of acquisition and depreciated as outlined below. Items of property, plant and equipment below the \$10 000 threshold are expensed in the year of acquisition.

The construction cost of property, plant and equipment includes the cost of materials and direct labour, and an appropriate proportion of fixed and variable overheads.

Complex Assets

Major items of plant and equipment comprising a number of components that have different useful lives, are accounted for as separate assets. The components may be replaced during the useful life of the complex asset.

Subsequent Additional Costs

Costs incurred on property, plant and equipment subsequent to initial acquisition are capitalised when it is probable that future economic benefits in excess of the originally assessed performance of the asset will flow to the department in future years. Where these costs represent separate components of a complex asset, they are accounted for as separate assets and are separately depreciated over their expected useful lives.

Construction (Work in Progress)

As part of the Financial Management Framework, the Department of Infrastructure, Planning and Logistics is responsible for managing general Government capital works projects on a whole of government basis. Therefore appropriation for all department capital works is provided directly to the Department of Infrastructure, Planning and Logistics and the cost of construction work in progress is recognised as an asset of that department. Once completed, capital works assets are transferred to the department.

Revaluations and Impairment

Revaluation of Assets

Subsequent to initial recognition, assets belonging to the following classes of non-current assets are revalued with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from their fair value at reporting date:

- > land;
- > buildings;
- > infrastructure assets; and
- > heritage and cultural assets.

Plant and equipment are stated at historical cost less depreciation, which is deemed to equate to fair value.

The latest revaluations of land, buildings and infrastructure assets were independently conducted as at 30 June 2015 by Colliers International. Refer to Note 14 Fair Value Measurement of Non-Financial Assets for additional disclosures.

The unique nature of some of the heritage and cultural assets may preclude reliable measurement. Such assets have not been recognised in the financial statements. The Australian Valuation Office completed a valuation of the collections held at the Museum and Art Gallery of the Northern Territory in June 2012.

Impairment of Assets

An asset is said to be impaired when the asset's carrying amount exceeds its recoverable amount.

Non-current physical and intangible department assets are assessed for indicators of impairment on an annual basis. If an indicator of impairment exists, the department determines the asset's recoverable amount. The asset's recoverable amount is determined as the higher of the asset's depreciated replacement cost and fair value less costs to sell. Any amount by which the entity's carrying amount exceeds the recoverable amount is recorded as an impairment loss.

Impairment losses are recognised in the Comprehensive Operating Statement unless the asset is carried at a re-valued amount.

Notes to the Financial Statements

For the year ended 30 June 2017

Where the asset is measured at a re-valued amount, the impairment loss is offset against the Asset Revaluation Reserve for that class of asset to the extent that an available balance exists in the Asset Revaluation Reserve.

In certain situations, an impairment loss may subsequently be reversed. Where an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount. A reversal of an impairment loss is recognised in the

Comprehensive Operating Statement as income, unless the asset is carried at a re-valued amount, in which case the impairment reversal results in an increase in the Asset Revaluation Reserve. Note 20 provides additional information in relation to Asset Revaluation Reserve.

Department property, plant and equipment assets were assessed for impairment as at 30 June 2017. No impairment adjustments were required as a result of this review.

Depreciation and Amortisation

Items of property, plant and equipment, including buildings but excluding land, have limited useful lives and are depreciated or amortised using the straight-line method over their estimated useful lives.

The Treasurer's Directions provide guidance for the estimated useful lives for each class of assets as follows, and allow the department to make other estimates as necessary:

	2017 Years
Buildings	10 - 50
Infrastructure Assets	8 - Infinite
Plant and Equipment	1 - 20
Transport Equipment	10
Computer Hardware	3 - 6
Computer Software	2 - 10

Assets are depreciated from the date of acquisition or from the time an asset is completed and held ready for use. Assets may be constructed internally, acquired assets may have modifications and accessories installed, and equipment may be calibrated and tested, affecting the date the asset is held ready for use.

14. Fair Value Measurement of Non-Financial Assets

(a) Fair Value Hierarchy

Fair values of non-financial assets categorised by level of inputs used to compute fair value are:

2016-17	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total Fair Value \$'000
Asset Classes				
Land (Note 11)	-	197 445	-	197 445
Buildings (Note 11)	-	-	172 542	172 542
Infrastructure (Note 11)	-	-	95 624	95 624

Intangibles (Note 12)	-	-	33	33
Heritage and Cultural Assets (Note 13)	-	-	119 329	119 329
Total Fair Value	-	197 445	389 597	587 042

There were no transfers between Level 1 and Levels 2 or 3 during 2016-17.

The Department's land, buildings, infrastructure and heritage and cultural assets are revalued at least once every five years.

The Department's land, building and infrastructure are stated at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses, including any additions or modifications. The latest revaluation of these assets was performed by the Colliers International as at 30 June 2015.

The Department did not have any non-financial assets valued using level 1.

Level 2 fair values of land were determined based on market evidence of sales price per square metre of comparable land.

Level 3 fair values predominantly relate to buildings and infrastructure and were determined by computing their depreciated replacement costs because an active market does not exist for such facilities due to their unique nature and potential inherent restrictions upon use. The depreciated replacement cost was based on a combination of internal records of the historical cost of the assets, adjusted for contemporary pricing and construction approaches, the remaining useful life of the assets, and current condition of the assets.

Notes to the Financial Statements

For the year ended 30 June 2017

(b) Value Techniques and Inputs

Valuation techniques used to measure fair value in 2016-17 are:

Asset Classes	Level 2 Technique	Level 3 Technique
Land	Market	-
Buildings	-	Cost
Infrastructure	-	Cost
Plant and Equipment	-	Cost
Transport Equipment	-	Cost
Computer Hardware	-	Cost
Intangibles	-	Cost
Heritage and Cultural Assets	-	Cost

The Department's heritage and cultural assets are stated at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The latest revaluation of these assets was performed by the Australian Valuation Office in June 2012.

The unique nature of some of the heritage and cultural assets may preclude reliable measurement, in particular culturally sensitive material which is secret or sacred to Aboriginal communities, and therefore have not been recognised in the financial statements. Level 3 fair value of the collections held at the Museum and Art Gallery of the Northern Territory were determined as follows:

> Regional Arts and Regional History – Items in these collections are normally held for their scientific interest for which no significant active market is evident. The cost of replacing this material however is considered significant, and therefore the replacement cost was the measurement of fair value for these items. If replacement is not possible, the replacement cost was applied to reflect the original cost of acquisition.

> Natural Science and Archaeology – Generally, treaties and protocols prohibit the sale of specimens included in these collections and therefore an active market does not exist for such assets. Therefore, fair value of items is determined on the basis of replacing or recollecting the existing material. The cost of replacing this material would include an estimate of the cost of the fieldwork and preparation necessary to replace the collection material in its present condition.

ii. Sensitivity analysis

Asset Classes	Sensitivity Analysis
Land, Buildings and Infrastructure	Unobservable inputs used in computing the fair value of these assets include the historical cost and the consumed economic benefit for each asset. Given the large number of assets, it is not practical to compute a relevant summary measure for the unobservable inputs. In respect of sensitivity of fair value to changes in input value, a higher historical cost results in a higher fair value and greater consumption of economic benefit lowers fair value.
Heritage and Cultural Assets	The key unobservable input used in computing the fair value of these assets is their 'contribution' to the purposes of the Department, but without regard to any intangible or non-monetary values that they may possess (scientific, cultural, historical, or sentimental values). Given the nature of the department's heritage and cultural assets, it is not practical to compute a relevant summary measure for the unobservable inputs. In respect of sensitivity of fair value to changes in input value, a higher or lower replacement or recollection cost results in a higher or lower fair value respectively.

Notes to the Financial Statements

For the year ended 30 June 2017

Employee Benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and sick leave when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of employee benefits that are expected to be settled wholly within twelve months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of employee benefits that are not expected to be settled within twelve months are measured as the present value of the estimated future cash outflows calculated using the appropriate government bond rate and taking into consideration expected future salary and wage levels, experience of employee departures and periods of service.

All recreation leave liabilities are classified as current liabilities as the department does not have an unconditional right to defer settlement for at least twelve months after the reporting period.

No provision is made for sick leave, which is non vesting, as the anticipated pattern of future sick leave to be taken is less than the entitlement accruing in each reporting period.

Employee benefit expenses are recognised on a net basis in respect of the following categories:

- > wages and salaries, non-monetary benefits, recreation leave, sick leave and other leave entitlements; and
- > other types of employee benefits.

As part of the Financial Management Framework, the Central Holding Authority assumes the long service leave liabilities of government departments including the Department, and as such no long service leave liability is recognised in the entity's financial statements.

Superannuation

Employees' superannuation entitlements are provided through the:

- > Northern Territory Government and Public Authorities Superannuation Scheme (NTGPASS);
- > Commonwealth Superannuation Scheme (CSS); or
- > non-government employee nominated schemes for those employees commencing on or after 10 August 1999.

The entity makes superannuation contributions on behalf of its employees to the Central Holding Authority or non-government employee nominated schemes. Superannuation liabilities related to Government superannuation schemes are held by the Central Holding Authority and as such are not recognised in the Department's financial statements.

22. Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments held by the department include cash and deposits, receivables, payables and deposits held. The department has limited exposure to financial risks as discussed below.

Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognised on the Balance Sheet when the entity becomes a party to the contractual provisions of the financial instrument. The department's financial instruments include cash and deposits; receivables; payables; and deposits held.

Due to the nature of operating activities, certain financial assets and financial liabilities arise under statutory obligations rather than a contract.

Such financial assets and liabilities do not meet the definition of financial instruments as per AASB 132 Financial Instruments Presentation. These include statutory receivables arising from taxes including GST and penalties.

Exposure to interest rate risk, foreign exchange risk, credit risk, price risk and liquidity risk arise in the normal course of activities. The department's investments, loans and placements, and borrowings are predominantly managed through the Northern Territory Treasury Corporation adopting strategies to minimise the risk. Derivative financial arrangements are also utilised to manage financial risks inherent in the management of these financial instruments. These arrangements include swaps, forward interest rate agreements and other hedging instruments to manage fluctuations in interest or exchange rates.

(a) Categorisation of Financial Instruments

The carrying amounts of the department's financial assets and liabilities by category are disclosed in the table below:

	Designated at Fair Value Through Profit or Loss \$'000	Finance Assets – Loans and Receivables \$'000	Total \$'000
Cash and deposits	8 285	-	8 285
Receivables ⁽¹⁾	-	310	310
Total Financial Assets	8 285	310	8 595
Deposits held	790	-	790
Payables ⁽¹⁾	3 608	-	3 608
Total Financial Liabilities	4 398	-	4 398

(1) The amount excludes amounts recoverable or payable to the ATO (statutory receivables/payables).

Classification of Financial Instruments

AASB 7 Financial Instruments: Disclosures requires financial instruments to be classified and disclosed within specific categories depending on their nature and purpose.

Financial assets are classified into the following categories:

- > financial assets at fair value through profit or loss;
- > held-to-maturity investments;
- > loans and receivables; and
- > available-for-sale financial assets.

Financial liabilities are classified into the following categories:

- > financial liabilities at fair value through profit or loss (FVTPL); and
- > financial liabilities at amortised cost.

Financial Assets or Financial Liabilities at Fair Value through Profit or Loss

Financial instruments are classified as at FVTPL when the instrument is either held for trading or is designated as at FVTPL.

An instrument is classified as held for trading if it is:

- > acquired or incurred principally for the purpose of selling or repurchasing it in the near term with an intention of making a profit; or
- > part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- > a derivative that is not a financial guarantee contract or a designated and effective hedging instrument.

A financial instrument may be designated as at FVTPL upon initial recognition if:

- > such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- > the instrument forms part of a group of financial instruments, which is managed and its performance is evaluated on a fair value

basis, in accordance with a documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or

- > it forms part of a contract containing one or more embedded derivatives, and AASB 139 Financial Instruments: Recognition and Measurement permits the contract to be designated as at FVTPL.

Financial liabilities at fair value through profit or loss include deposits held excluding statutory deposits, accounts payable and accrued expenses. Financial assets at fair value through profit or loss include short-term securities and bonds.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those held for trading and available for sale. Loans and receivables exclude statutory receivables.

Financial Liabilities at Amortised Cost

Financial instrument liabilities measured at amortised cost include all advances received, finance lease liabilities and borrowings. Amortised cost is calculated using the effective interest method.

(b) Credit Risk

The department has limited credit risk exposure (risk of default). In respect of any dealings with organisations external to Government, the Department has adopted a policy of only dealing with credit worthy organisations and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the entity's maximum exposure to credit risk without taking account of the value of any collateral or other security obtained.

Notes to the Financial Statements

For the year ended 30 June 2017

Receivables

Receivable balances are monitored on an ongoing basis to ensure that exposure to bad debts is not significant. A reconciliation and aging analysis of receivables is presented below.

(c) Liquidity Risk

Liquidity risk is the risk that the Department will not be able to meet its financial obligations as they fall due. The Department's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when they fall due.

The Department's liquidity risk includes credit cards which are managed with tight controls and low limits. Credit card use and limits are reviewed regularly.

The following tables detail the Department's remaining contractual maturity for its financial assets and liabilities.

Maturity Analysis for Financial Assets and Liabilities

2016-17	Variable Interest Rate Less than a year \$'000	Non - Interest Bearing \$'000	Carrying Amount \$'000
Assets			
Cash and deposits	37	8 248	8 285

Total Financial Assets	37	8 558	8 595
Liabilities			
Deposits held	37	753	790
Payables (1)	-	3 608	3 608
Total Financial Liabilities	37	4 361	4 398

(1) The amount excludes amounts recoverable or payable to the ATO (statutory receivables/payables).

(d) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. It comprises interest rate risk, price risk and currency risk.

(i) Interest Rate Risk

The Department has no exposure to interest rate risk as all financial assets and financial liabilities, with the exception of the Gift Fund held are non-interest bearing. Interest earned on the Gift Fund is accounted for as both an asset and a liability, therefore changes to the variable rates of 100 basis points (1%) at reporting date would have had no effect on the department's profit or loss and equity.

(ii) Price Risk

The Department is not exposed to price risk as it does not hold units in unit trusts.

Notes to the Financial Statements

For the year ended 30 June 2017

(iii) Currency Risk

The Department has some exposure to currency risk as a result of transactional currency held for international operations. Foreign currency held is revalued on a monthly basis using closing monthly Reserve Bank of Australia rates. The Department does not hold borrowings denominated in foreign currencies.

(e) Net Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The highest and best use takes into account the use of the asset that is physically possible, legally permissible and financially feasible.

When measuring fair value, the valuation techniques used maximise the use of relevant observable inputs and minimise the use of unobservable inputs. Unobservable inputs are used to the extent that sufficient relevant and reliable observable inputs are not available for similar assets/liabilities.

Observable inputs are publicly available data that are relevant to the characteristics of the assets/liabilities being valued. Observable inputs used by the entity include, but are not limited to, published sales data for land and general office buildings.

Unobservable inputs are data, assumptions and judgments that are not available publicly, but are relevant to the characteristics of the assets/liabilities being valued. Such inputs include

internal entity adjustments to observable data to take account of particular and potentially unique characteristics/functionality of assets/liabilities and assessments of physical condition and remaining useful life.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the following fair value hierarchy based on the inputs used:

Level 1 – inputs are quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 – inputs are unobservable.

The fair value of financial instruments is determined on the following basis:

- > the fair value of cash, deposits, advances, receivables and payables approximates their carrying amount, which is also their amortised cost;
- > the fair value of derivative financial instruments are derived using current market yields and exchange rates appropriate to the instrument; and
- > the fair value of other monetary financial assets and liabilities is based on discounting to present value the expected future cash flows by applying current market interest rates for assets and liabilities with similar risk profiles.

The carrying amount of financial assets and financial liabilities recorded in the financial statements approximates to their respective net fair values. Where differences exist, these are not material.

23. Related Parties

(a) Related Parties

The Department is a government administrative entity and is wholly owned and controlled by the Northern Territory Government. Related parties of the Department include:

- > the Portfolio Minister and key management personnel (KMP) because they have authority and responsibility for planning, directing and controlling the activities of the entity directly; and
- > spouses, children and dependants who are close family members of the Portfolio Minister or KMP; and
- > all public sector entities that are controlled and consolidated into the whole of government financial statements; and
- > any entities controlled or jointly controlled by KMP's or the Portfolio Minister or controlled or jointly controlled by their close family members.

(b) Key Management Personnel (KMP)

Key management personnel of the Department are those persons having authority and responsibility for planning, directing and controlling the activities of the Department. These include the Minister of Tourism and Culture, the Chief Executive Officer and the members of the governance board of the Department as listed in the annual report.

(c) Remuneration of Key Management Personnel

The details below excludes the salaries and other benefits of Minister of Tourism and Culture as the Minister's remunerations and allowances are payable by the Department of the Legislative Assembly and consequently disclosed within the Treasurer's Annual Financial Statements.

The aggregate compensation of key management personnel of Department is set out below:

	2017 \$'000
Short-term employee benefits	1 748
Long-term benefits	-
Post-employment benefits	207
Termination benefits	882
Total	2 837

(d) Related Party Transactions

Transactions with Northern Territory Government Controlled Entities

The Department's ongoing source of funding is received from the Central Holding Authority in the form of output and capital appropriation and on-passed Commonwealth national partnership and specific purpose payments.

The following table provides quantitative information about related party transactions entered into during the year with all other Northern Territory Government controlled entities.

Related Party	Revenue from Related Parties 2017 \$'000	Payments to Related Parties 2017 \$'000	Amounts Owed by Related Parties 2017 \$'000	Amounts Owed to Related Parties 2017 \$'000
All NTG Government Departments	4 176	64 641	7	668
Associates	-	7	-	13
Subsidiaries	-	-	-	-

Other related party transactions are as follows:

Given the breadth and depth of the Government activities, related parties will transact with the Northern Territory Public sector in a manner consistent with other members of the public including paying stamp duty and other government fees and charges and therefore these transactions have not been disclosed. No other related party transactions have occurred in the 2016-17 year.

24. Contingent Liabilities and Contingent Assets

(a) Contingent Liabilities

The Department has no contingent liabilities as at 30 June 2017.

(b) Contingent Assets

The Department had no contingent assets as at 30 June 2017.

25. Events Subsequent to Balance Sheet Date

No events have arisen between the end of the financial year and the date of this report that require adjustment to, or disclosure in these financial statements.

29. Budgetary Information: Administered Territory Items

In addition to the specific departmental operations which are included in the financial statements, the Department administers or manages other activities and resources on behalf of the Territory such as royalties. The department does not gain control over assets arising from these collections, consequently no income is recognised in the department's financial statements. The transactions relating to these activities are reported as administered items in this note.

The Territory Wildlife Parks' Financial Statement Overview

This section of the report provides an analysis of the financial activities of Territory Wildlife Parks for the year ended 30 June 2017.

Territory Wildlife Parks is a Government Business Division (GBD) responsible for managing the Territory Wildlife Park at Berry Springs and the Alice Springs Desert Park. As a GBD, Territory Wildlife Parks are required to pay the full cost of resources used (including tax equivalents), set efficient prices based on costs, and operate under appropriate commercial accounting and management structures.

The key responsibility of both parks is to showcase the Northern Territory's unique flora and fauna in a natural environment that is inviting and interesting for the visiting public. The Parks experience enables people to understand, respect and enjoy the Territory's natural environments.

Financial Performance

In 2016-17, the Territory Wildlife Parks reported a net operating loss of \$2.9 million, or an adjusted loss of \$0.8 million prior to charging non-cash depreciation. This compares to a budgeted profit before depreciation of \$0.1 million.

The position is unfavourable compared to budget, however has remained consistent with 2015-16.

The Parks have been actively enhancing its products and experiences to attract new visitors and revenue, and in 2017-18 the Territory Wildlife Park will be developing a 10-year masterplan that underpins the vision and strategic direction of the park.

Net (Loss)/Profit Before Depreciation	(1 007)	167	(840)

Income

The income received in 2016-17 was \$0.7 million higher than budget and \$0.6 million higher than prior year due to an increase in entry fees in April 2016 and increased visitor numbers across both parks.

The Parks' primary source of income is from the Northern Territory Government in the form of a Community Service Obligation (CSO) payment. The CSO allows the government to achieve identifiable community or social objectives which would not be achieved if outcomes were purely commercially delivered. The non-commercial functions carried out by Territory Wildlife Parks include captive breeding of endangered rare and threatened species, biodiversity conservation,

education, botanical gardens management and tourism growth and development.

CSO funding of \$7.8 million was received in 2016-17 as expected.

Income from entry fees of \$2.1 million was a \$0.3 million increase from the previous year as a result of an increase in entry fees and a healthy increase in visitor numbers across both parks contributing to this. An additional 15 846 visitors attended Parrtjima - A Festival of Light. The total visitor numbers for 2016-17 was 133 327, an increase of 13 254 visitors in comparison to the previous year (120 073 in 2015-16).

2016-17 Income by Source (\$'000)

The Territory Wildlife Parks' Financial Statement Overview

The below table shows the 5 year trend for income sources with a comparison of actual income and budgeted income for 2016-17. It demonstrates a steady increase in income with a significant increase in the 2016-17 year attributed the increase of entry fees, visitor traffic and engagement experience by both parks.

Expenses

Operating the Territory Wildlife Parks in 2016-17 cost \$14 million, \$1.8 million more than budget and \$0.6 million more than 2015-16.

Employee Expenses

Employee costs represent 51 percent of total expenditure. In 2016-17, employee expenses increased by 6.5 percent or \$0.4 million more than the prior year to \$7.1 million. This was due to pay rises under the enterprise agreement and increases in staffing levels across both parks.

Goods and Services Expenses

The purchase of goods and services to operate the Parks' represents 29.9 percent of total expenditure at a cost of \$4.2 million, \$0.2 million more than

both budget and prior year. The increase in expenses is due to increased consumables in relation to higher visitor numbers and higher utility costs at ASDP.

Repairs and Maintenance Expenses

The repairs and maintenance program for the Parks of \$0.7 million was fully expended during the year consistent with budget.

Depreciation

Depreciation is the allocation of an asset's cost over its useful life. In 2016-17 depreciation was consistent with the prior year at \$2 million, and \$0.1 million more than budget due to the parks asset revaluation completed in June.

The Territory Wildlife Parks' Financial Statement Overview

Balance Sheet

The Balance Sheet provides a summary of Territory Wildlife Parks' balances at the end of the financial year for assets, liabilities and equity.

The balances reported are the net worth to Government of the Parks' asset holdings (what is owned) against liabilities (what is owed).

The five year trend for net assets/equity is as follows:

Expense Type	Actual 2012-13 \$'000	Actual 2013-14 \$'000	Actual 2014-15 \$'000	Actual 2015-16 \$'000	Actual 2016-17 \$'000

Net Assets/Equity	23 562	35 090	34 235	33 122	38 113

Assets

The Territory Wildlife Parks maintain a significant asset base with \$39.4 million controlled assets at 30 June 2017.

The largest asset group is physical buildings, infrastructure, plant and equipment with a value of \$38.6 million. An increase in the value of the asset base of \$5 million over the prior year relates to:

- > \$0.7 million transferred in for completed capital works including the eagle encounter upgrade at ASDP
- > \$6.3 million asset revaluation increment following the revaluation of assets as at 30 June 2017; offset by
- > \$2 million in depreciation

The balance of assets consists of:

- > Cash balances of \$0.5 million, representing cash held in a financial institution, petty cash and floats
- > Receivables of \$0.2 million representing the amount that is owed to the Parks for goods and services provided and delivered
- > Inventory of \$44 000 representing stock on hand for retail and café facilities, and bulk fuel on stock for park use
- > Prepayments of \$10 000 for goods and services paid in advanced but not yet received

Liabilities

Territory Wildlife Park's liabilities total \$1.3 million as at 30 June 2017.

The \$1.3 million liability balance consists of:

- > Deposits held of \$0.1 million being money held in the TWP gift fund account and money held on behalf of third parties for charity collections
- > Payables of \$0.4 million representing the amount owing to creditors for goods and services purchased and received
- > Provisions for employee entitlements of \$0.8 million, such as recreation leave, leave loading and leave fares to reflect the cost in present day dollars of employee entitlements to be paid in the future

Equity

Equity as at 30 June 2017 is \$38.1 million, an increase in net worth of \$5 million from the previous year.

This result is a combination of:

- > \$0.9 million cash capital injection to maintain cash balances
- > \$0.7 million transferred into the GBD for completed building and infrastructure works
- > \$6.3 million asset revaluation increment following the revaluation of assets as at 30 June 2017; offset by
- > \$2.9 million operating loss recorded for 2016-17

Opinion

I have audited the accompanying financial report of Territory Wildlife Parks, which comprises the balance sheet as at 30 June 2017, and the comprehensive operating statement, statement of changes in equity and cash flow statement for the year then ended, a summary of significant accounting policies and other explanatory notes, and the certification of the financial statements by the Chief Executive Officer.

In my opinion, the financial report gives a true and fair view, in all material respects, of the financial position of Territory Wildlife Parks as at 30 June 2017, and of its financial performance and its cash flows for the year then ended in accordance with Australian Accounting Standards.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of Territory Wildlife Parks in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other Information

The Chief Executive Officer of the Department of Tourism and Culture is responsible for the other information. The other information comprises the information included in Territory Wildlife Parks' financial statement overview for the year ended 30 June 2017, but does not include the financial report and my auditor's report thereon.

My opinion on the financial report does not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Responsibilities of the Chief Executive Officer for the Financial Report

The Chief Executive Officer is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and for such internal control as the Chief Executive Officer determines is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, management is responsible for assessing Territory Wildlife Parks' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Territory Wildlife Parks or to cease operations, or has no realistic alternative but to do so.

Auditor-General

Page 2 of 2

Those charged with governance are responsible for overseeing Territory Wildlife Parks' financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Territory Wildlife Parks' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Territory Wildlife Parks' ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause Territory Wildlife Parks to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to the Financial Statements

For the year ended 30 June 2017

1. Objectives and Funding

Territory Wildlife Parks (“the Entity”) is a Government Business Division responsible for managing the Territory Wildlife Park at Berry Springs and the Alice Springs Desert Park. A key responsibility of both Parks is to showcase the Northern Territory’s unique flora and fauna in a natural environment that is interactive and interesting for the visiting public, provides recreational opportunities and promotes biodiversity conservation principles. The Parks experience enables people to understand, respect and enjoy the Territory’s natural environments.

Territory Wildlife Parks, established under the *Financial Management Act*, is subject to the direction of the Minister for Department of Tourism and Culture. Territory Wildlife Parks is dependent on funding from the Northern Territory Government in recognition that it carries out activities on a non-commercial basis. Such funding is termed a ‘Community Service Obligation’ and this funding is reflected in the Comprehensive Operating Statement (also refer to Note 18).

These financial statements are prepared on a going concern basis in the expectation that such funding will continue.

2. Statement of Significant Accounting Policies

(a) Statement of Compliance

The financial statements have been prepared in accordance with the requirements of the *Financial Management Act* and related Treasurer’s Directions. The *Financial Management Act* requires Territory Wildlife Parks to prepare financial statements for the year ended 30 June based on the form determined by the Treasurer. The form of the entity’s financial statements is to include:

- (i) a Certification of the Financial Statements
- (ii) a Comprehensive Operating Statement
- (iii) a Balance Sheet
- (iv) a Statement of Changes in Equity
- (v) a Cash Flow Statement
- (vi) applicable explanatory notes to the financial statements.

(b) Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting, which recognises the effect of financial transactions and events when they occur, rather than when cash is paid out or received.

Except where stated, the financial statements have also been prepared in accordance with the historical cost convention.

The financial statements are also consistent with the requirements of Australian Accounting Standards. The effects of all relevant new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are effective for the current annual reporting period have been evaluated.

The following new and revised accounting standards and interpretations were effective for the first time in 2016-17:

AASB 124 Related Party Disclosures

This standard applies to not-for-profit sector for the first time in 2016-17. The accounting standard requires disclosures about the remuneration of key management personnel, transactions with related parties, and relationships between parent and controlled entities. For any such transactions, disclosures will include the nature of the related party relationship, as well as information about those transactions’ terms/conditions and amounts, any guarantees given/received, outstanding receivables/payables, commitments, and any receivables where collection has been assessed as being doubtful.

Several other amending standards and AASB interpretations have been issued that apply to the current reporting periods, but are considered to have no impact on public sector reporting.

Notes to the Financial Statements

For the year ended 30 June 2017

At the date of authorisation of the financial statements, the following standards and interpretations were in issue but are not yet effective and are expected to have a potential impact on future reporting periods:

AASB 16 Leases

AASB 16 Leases is effective for annual reporting periods beginning on or after 1 January 2019 and will be reported in these financial statements for the first time in 2019-20. When the standard is effective it will supersede AASB 117 Leases and requires the majority of leases to be recognised on the balance sheet.

For lessees with operating leases, a right-of-use asset will now come onto the balance sheet together with a lease liability for all leases with a term of more than 12 months, unless the underlying assets are of low value. The Comprehensive Operating Statement will no longer report operating lease rental payments, instead a depreciation expense will be recognised relating to the right-to-use asset and interest expense relating to the lease liability.

While for lessors, the finance and operating lease distinction remains largely unchanged. For finance leases, the lessor recognises a receivable equal to the net investment in the lease. Lease receipts from operating leases are recognised as income either on a straight-line basis or another systematic basis where appropriate.

Consequently, it is expected that approximately \$0.5 million in operating lease commitments will be required to be recognised in the balance sheet through a lease liability and corresponding right to use asset from 2019-20 in accordance with AASB 16 Leases. In the comprehensive operating statement the operating lease expense will be replaced with a depreciation expense relating to the right to use asset and interest expense relating to the lease liability. These cannot be quantified at this time.

AASB 1058 Income for Not-For-Profit Entities and AASB 15 Revenue from Contracts with Customers

AASB 1058 Income for Not-For-Profit Entities and AASB 15 Revenue with Contracts with Customers are effective for annual reporting periods

beginning on or after 1 January 2019 and will be reported in these financial statements for the first time in 2019-20.

Under the new AASB 1058 Income for Not-for-Profit Entities, revenue from grants and donations will be recognised when any associated performance obligation to provide goods or services is satisfied, and not immediately upon receipt as currently occurs. Consequently, more liabilities will be recognised in the balance sheet after adoption of this standard.

AASB 1058 clarifies and simplifies income-recognition requirements that apply to not-for-profit entities in conjunction with AASB 15 Revenue from Contracts with Customers.

While the full impacts are yet to be determined, potential impacts identified include:

Grants received to construct or acquire a non-financial asset will be recognised as a liability, and subsequently recognised as revenue as the performance obligations under the grant are satisfied. At present, such grants are recognised as revenue on receipt.

Grants with an enforceable agreement and sufficiently specific performance obligations will be recognised as revenue progressively as the associated performance obligations are satisfied. At present, such grants are recognised as revenue on receipt.

Grants that have an enforceable agreement but no specific performance obligations but have restrictions on the timing of expenditure will also continue to be recognised on receipt as time restriction on the use of funds is not sufficiently specific to create a performance obligation.

Grants that are not enforceable and/or not sufficiently specific will not qualify for deferral, and continue to be recognised as revenue as soon as they are controlled.

Several other amending standards and AASB interpretations have been issued that apply to future reporting periods, but are considered to have limited impact on future financial reporting.

Notes to the Financial Statements

For the year ended 30 June 2017

(c) Reporting Entity

The financial statements cover the entity as an individual reporting entity.

Territory Wildlife Parks ("the Entity") is a Government Business Division established under the *Financial Management Act*.

The principal places of business of the entity are:

Territory Wildlife Park
Cox Peninsula Road
BERRY SPRINGS NT 0838

Alice Springs Desert Park
871 Larapinta Drive
ALICE SPRINGS NT 0871

(d) Comparatives

Where necessary, comparative information for the 2015-16 financial year has been reclassified to provide consistency with current year disclosures.

(e) Presentation and Rounding of Amounts

Amounts in the financial statements and notes to the financial statements are presented in Australian dollars and have been rounded to the nearest thousand dollars, with amounts less than \$500 being rounded down to zero. Figures in the financial statements and notes may not equate due to rounding.

(f) Changes in Accounting Policies

There have been no changes to accounting policies adopted in 2016-17 as a result of management decisions.

(g) Accounting Judgements and Estimates

The preparation of the financial report requires the making of judgements and estimates that affect the recognised amounts of assets, liabilities, revenues and expenses and the disclosure of contingent liabilities. The estimates and associated assumptions are based on historical experience

and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements and estimates that have significant effects on the financial statements are disclosed in the relevant notes to the financial statements.

(h) Goods and Services Tax

Income, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except where the amount of GST incurred on a purchase of goods and services is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the ATO are classified as operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable or payable unless otherwise specified.

(i) Taxation

The entity is required to pay income tax on its accounting profit, excluding extraordinary items, at the company rate of 30 per cent in accordance with the requirements of the Treasurer's Directions and the NT Tax Equivalent Regime. The entity does not have a present income tax liability as it has incurred a loss for income tax purposes and has not taken to account any future income tax benefits arising from this loss as the potential future income tax benefit is not probable.

The future income tax benefits will only be realised if:

- (i) the entity derives future assessable income of a nature and amount sufficient to enable the benefit to be realised;
- (ii) the entity continues to comply with the conditions for deductibility imposed by the Treasurer's Directions; and
- (iii) there are no changes to the NT Tax Equivalent Regime that adversely affect the entity.

(j) Prepayments

Prepayments represent payments in advance of receipt of goods and services or that part of expenditure made in one accounting period covering a term extending beyond that period.

(k) Leased Assets

Leases under which Territory Wildlife Parks assumes substantially all the risks and rewards of ownership of an asset are classified as finance leases. Other leases are classified as operating leases. The entity does not have any assets under a finance lease.

Operating Leases

Operating lease payments made at regular intervals throughout the term are expensed when the payments are due, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased property.

Total Income	11 162	10 591

Notes to the Financial Statements

For the year ended 30 June 2017

Income

Income encompasses both revenue and gains.

Income is recognised at the fair value of the consideration received, exclusive of the amount of GST. Exchanges of goods or services of the same nature and value without any cash consideration being exchanged are not recognised as income.

Grants and Other Contributions

Grants, donations, gifts and other non-reciprocal contributions are recognised as income when the entity obtains control over the assets comprising the contributions. Control is normally obtained upon receipt.

Contributions are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

Community Service Obligations

Community Service Obligation funding is received from the Department of Tourism and Culture when an entity is required to carry out activities on a non-commercial basis. Income in respect of this funding is recognised in the period in which it accrues. Refer also to Note 18.

Sale of Goods

Revenue from the sale of goods is recognised (net of returns, discounts and allowances) when:

- > the significant risks and rewards of ownership of the goods have transferred to the buyer;
- > the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- > the amount of revenue can be reliably measured;
- > it is probable that the economic benefits associated with the transaction will flow to the entity; and
- > the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of Services

Revenue from rendering of services is recognised by reference to the stage of completion of the contract. The revenue is recognised when:

- > the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- > it is probable that the economic benefits associated with the transaction will flow to the entity.

Interest Revenue

Interest Revenue is recognised as it accrues, taking into account the effective yield on the financial asset.

Disposal of Assets

A gain or loss on disposal of assets is included as a gain or loss on the date control of the asset passes to the buyer, usually when an unconditional contract of sale is signed. The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

Contributions of Assets

Contributions of assets and contributions to assist in the acquisition of assets, being non-reciprocal transfers, are recognised, unless otherwise determined by Government, as gains when Territory Wildlife Parks obtains control of the asset or contribution. Contributions are recognised at the fair value received or receivable.

Cash and Deposits

For the purposes of the Balance Sheet and the Cash Flow Statement, cash includes cash on hand, cash at bank and cash equivalents. Cash equivalents are highly liquid short-term investments that are readily convertible to cash. Cash at bank includes monies held in Accountable Officer's Trust Account (AOTA) that are ultimately payable to the beneficial owner. Refer also to Note 22.

Receivables

Receivables include accounts receivable and other receivables and are recognised at fair value less any allowance for impairment losses.

The allowance for impairment losses represents the amount of receivables the Entity estimates are likely to be uncollectible and are considered doubtful. Analysis of the age of the receivables, which are past due as at the reporting date, are disclosed in an aging schedule under credit risk in Note 17 Financial Instruments. Reconciliation of changes in the allowance accounts is also presented.

Accounts receivable are generally settled within 30 days.

General Inventories		
At cost	44	47
Total Inventories	44	47

Inventories

Inventories include assets held either for sale (general inventories) or for distribution at no or nominal consideration in the ordinary course of business operations.

General inventories are valued at the lower of cost and net realisable value, while those held for distribution are carried at the lower of cost and current replacement cost. Cost of inventories includes all costs associated with bringing the inventories to their present location and condition. When inventories are acquired at no or nominal consideration, the cost will be the current replacement cost at date of acquisition.

The cost of inventories are assigned using a mixture of first-in, first out or weighted average cost formula or using specific identification of their individual costs.

Inventory held for distribution is regularly assessed for obsolescence and loss.

Notes to the Financial Statements

For the year ended 30 June 2017

Acquisitions

All items of property, plant and equipment with a cost, or other value, equal to or greater than \$10 000 are recognised in the year of acquisition and depreciated as outlined below. Items of property, plant and equipment below the \$10 000 threshold are expensed in the year of acquisition.

The construction cost of property, plant and equipment includes the cost of materials and direct labour, and an appropriate proportion of fixed and variable overheads.

Complex Assets

Major items of plant and equipment comprising a number of components that have different useful lives, are accounted for as separate assets. The components may be replaced during the useful life of the complex asset.

Subsequent Additional Costs

Costs incurred on property, plant and equipment subsequent to initial acquisition are capitalised when it is probable that future economic benefits in excess of the originally assessed performance of the asset will flow to Territory Wildlife Parks in future years. Where these costs represent separate components of a complex asset, they are accounted for as separate assets and are separately depreciated over their expected useful lives.

Construction (Work in Progress)

As part of the Financial Management Framework, the Department of Infrastructure, Planning and Logistics is responsible for managing general Government capital works projects on a whole of Government basis. Therefore appropriation for most of Territory Wildlife Parks' capital works is provided directly to the Department of Infrastructure, Planning and Logistics and the cost of construction work in progress is recognised as an asset of that Department. Once completed, capital works assets are transferred to the entity.

Revaluations and Impairment

Revaluation of Assets

Subsequent to initial recognition, assets belonging to the following classes of non-current assets are revalued with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from their fair value at reporting date:

- > Buildings; and
- > Infrastructure Assets.

Plant and equipment are stated at historical cost less depreciation, which is deemed to equate to fair value.

The latest revaluations as at 30 June 2017 were independently conducted. The valuer was Colliers International. Refer to Note 10 Fair Value Measurement of Non-Financial Assets for additional disclosures.

Impairment of Assets

An asset is said to be impaired when the asset's carrying amount exceeds its recoverable amount.

Non-current physical and intangible entity assets are assessed for indicators of impairment on an annual basis. If an indicator of impairment exists, the entity determines the asset's recoverable amount. The asset's recoverable amount is determined as the higher of the asset's depreciated replacement cost and fair value less costs to sell. Any amount by which the entity's carrying amount exceeds the recoverable amount is recorded as an impairment loss.

Impairment losses are recognised in the Comprehensive Operating Statement unless the asset is carried at a re-valued amount. Where the asset is measured at a re-valued amount, the impairment loss is offset against the Asset Revaluation Reserve for that class of asset to the extent that an available balance exists in the Asset Revaluation Reserve.

In certain situations, an impairment loss may subsequently be reversed. Where an impairment loss is subsequently reversed, the carrying amount of the asset is increased to the revised estimate of its recoverable amount. A reversal of an impairment loss is recognised in the

Notes to the Financial Statements

For the year ended 30 June 2017

Comprehensive Operating Statement as income, unless the asset is carried at a re-valued amount, in which case the impairment reversal results in an increase in the Asset Revaluation Reserve. Note 15 provides additional information in relation to Asset Revaluation Reserve.

Territory Wildlife Parks' property, plant and equipment assets were assessed for impairment as at 30 June 2017. No impairment adjustments were required as a result of this review.

Depreciation and Amortisation

Items of property, plant and equipment, including buildings but excluding land, have limited useful lives and are depreciated or amortised using the straight-line method over their estimated useful lives.

The Treasurer's Directions provide guidance for the estimated useful lives for each class of assets as follows, and allow Territory Wildlife Parks to make other estimates as necessary:

	2017 Years	2016 Years
Buildings	10 - 50	10 - 50
Infrastructure Assets	8 - Infinite	8 - Infinite
Plant and Equipment	1 - 20	1 - 20
Transport Equipment	10	10
Computer Hardware	3 - 6	3 - 6

Assets are depreciated from the date of acquisition or from the time an asset is completed and held ready for use. Assets may be constructed internally, acquired assets may have modifications and accessories installed, and equipment may be calibrated and tested, affecting the date the asset is held ready for use.

10. Fair Value Measurement of Non-Financial Assets

(a) Fair Value Hierarchy

Fair values of non-financial assets categorised by level of inputs used to compute fair value are:

2016-17	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total Fair Value \$'000
Asset Classes				
Buildings (Note 9)	-	-	21 961	21 961
Infrastructure (Note 9)	-	-	16 622	16 622
Plant and Equipment (Note 9)	-	-	44	44
Transport Equipment (Note 9)	-	-	7	7
Computer Hardware (Note 9)	-	-	-	-
Total Fair Value	-	-	38 634	38 634

There were no transfers between Level 1 and Levels 2 or 3 during 2016-17.

2015-16	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total Fair Value \$'000
Asset Classes				
Buildings (Note 9)	-	-	21 150	21 150
Infrastructure (Note 9)	-	-	12 498	12 498
Plant and Equipment (Note 9)	-	-	3	33
Transport Equipment (Note 9)	-	-	9	9
Computer Hardware (Note 9)	-	-	-	-
Total Fair Value	-	-	33 660	33 660

There were no transfers between Level 1 and Levels 2 or 3 during 2015-16.

Notes to the Financial Statements

For the year ended 30 June 2017

(b) Value Techniques and Inputs

Valuation techniques used to measure fair value in 2016-17 are:

Asset Classes	Level 2 Technique	Level 3 Technique
Buildings	-	Cost
Infrastructure	-	Cost
Plant and Equipment	-	Cost
Transport Equipment	-	Cost
Computer Hardware	-	Cost

There were no changes in valuation techniques from 2015-16 and 2016-17.

Territory Wildlife Park's building and infrastructure assets are stated at their revalued amounts, being the fair value at the date of revaluation, less any subsequent depreciation and subsequent accumulated impairment losses, including any additions or modifications. The latest revaluation of these assets was performed by Colliers International as at 30 June 2017.

Level 3 fair values predominantly relate to buildings and infrastructure and were determined by computing their depreciated replacement costs because an active market does not exist for such facilities due to their unique nature and potential inherent restrictions upon use. The depreciated replacement cost was based on a combination of internal records of the historical cost of the assets, adjusted for contemporary pricing and construction approaches, the remaining useful life of the assets, and current condition of the assets.

Notes to the Financial Statements

For the year ended 30 June 2017

(c) Additional information for Level 3 Fair Value Measurements

Gains/(losses) recognised in other comprehensive income	-	-	-	-	-
Fair Value as at 30 June 2016	21 150	12 498	3	9	-

(ii) Sensitivity analysis

Unobservable inputs used in computing the fair value of land, buildings and infrastructure include the historical cost and the consumed economic benefit for each asset. Given the large number of assets, it is not practical to compute a relevant summary measure for the unobservable inputs. In respect of sensitivity of fair value to changes in input value, a higher historical cost results in a higher fair value and greater consumption of economic benefit lowers fair value.

Employee Benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and sick leave when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of employee benefits that are expected to be settled wholly within twelve months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of employee benefits that are not expected to be settled within twelve months are measured as the present value of the estimated future cash outflows calculated using the appropriate government bond rate and taking into consideration expected future salary and wage levels, experience of employee departures and periods of service.

All recreation leave liabilities are classified as current liabilities as Territory Wildlife Parks does not have an unconditional right to defer settlement for at least twelve months after the reporting period.

No provision is made for sick leave, which is non vesting, as the anticipated pattern of future sick leave to be taken is less than the entitlement accruing in each reporting period.

Employee benefit expenses are recognised on a net basis in respect of the following categories:

- > wages and salaries, non-monetary benefits, recreation leave, sick leave and other leave entitlements; and
- > other types of employee benefits.

As part of the Financial Management Framework, the Central Holding Authority assumes the long service leave liabilities of Government Business Divisions including Territory Wildlife Parks, and as such no long service leave liability is recognised in the entity's financial statements.

Superannuation

Employees' superannuation entitlements are provided through the:

- > Northern Territory Government and Public Authorities Superannuation Scheme (NTGPASS);
- > Commonwealth Superannuation Scheme (CSS); or
- > non-government employee nominated schemes for those employees commencing on or after 10 August 1999.

The entity makes superannuation contributions on behalf of its employees to the Central Holding Authority or non-government employee nominated schemes. Superannuation liabilities related to Government superannuation schemes are held by the Central Holding Authority and as such are not recognised in the entity's financial statements.

17. Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments held by the entity include cash and deposits, receivables, payables and deposits held. Territory Wildlife Parks' has limited exposure to financial risks as discussed below.

Financial assets and liabilities are recognised on the Balance Sheet when the entity becomes a party to the contractual provisions of the financial instrument.

Due to the nature of operating activities, certain financial assets and financial liabilities arise under statutory obligations rather than a contract. Such financial assets and liabilities do not meet the definition of financial instruments as per AASB 132 Financial Instruments Presentation. These include statutory receivables arising from taxes including GST and penalties.

Exposure to interest rate risk, foreign exchange risk, credit risk, price risk and liquidity risk arise in the normal course of activities. The entity's investments, loans and placements, and borrowings are predominantly managed through the Northern Territory Treasury Corporation adopting strategies to minimise the risk.

(a) Categorisation of Financial Instruments

The carrying amounts of Territory Wildlife Parks' financial assets and liabilities by category are disclosed in the table below:

Classification of Financial Instruments

AASB 7 Financial Instruments: Disclosures requires financial instruments to be classified and disclosed within specific categories depending on their nature and purpose.

Financial assets are classified into the following categories:

- > financial assets at fair value through profit or loss;
- > held-to-maturity investments;
- > loans and receivables; and
- > available-for-sale financial assets.

Financial liabilities are classified into the following categories:

- > financial liabilities at fair value through profit or loss (FVTPL); and
- > financial liabilities at amortised cost.

Financial Assets or Financial Liabilities at Fair Value through Profit or Loss

Financial instruments are classified as at FVTPL when the instrument is either held for trading or is designated as at FVTPL.

An instrument is classified as held for trading if it is:

- > acquired or incurred principally for the purpose of selling or repurchasing it in the near term with an intention of making a profit; or
- > part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- > a derivative that is not a financial guarantee contract or a designated and effective hedging instrument.

A financial instrument may be designated as at FVTPL upon initial recognition if:

- > such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- > the instrument forms part of a group of financial instruments, which is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- > it forms part of a contract containing one or more embedded derivatives, and AASB 139 Financial Instruments: Recognition and Measurement permits the contract to be designated as at FVTPL.

Notes to the Financial Statements

For the year ended 30 June 2017

- > Financial liabilities at fair value through profit or loss include deposits held excluding statutory deposits, accounts payable and accrued expenses. Financial assets at fair value through profit or loss include short-term securities and bonds.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those held for trading and available for sale. Loans and receivables exclude statutory receivables.

Financial Liabilities at Amortised Cost

Financial instrument liabilities measured at amortised cost include all advances received, finance lease liabilities and borrowings. Amortised cost is calculated using the effective interest method.

(b) Credit Risk

Territory Wildlife Parks has limited credit risk exposure (risk of default). In respect of any dealings with organisations external to Government, the entity has adopted a policy of only dealing with credit worthy organisations and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the entity's maximum exposure to credit risk without taking account of the value of any collateral or other security obtained.

Receivables

- > Receivable balances are monitored on an ongoing basis to ensure that exposure to bad debts is not significant. A reconciliation and aging analysis of receivables is presented below.

(c) Liquidity Risk

Liquidity risk is the risk that the entity will not be able to meet its financial obligations as they fall due. Territory Wildlife Park's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when they fall due.

The Territory Wildlife Parks experiences seasonal fluctuations of its business and it receives a Community Service Obligation payment (refer to Note 18). Territory Wildlife Parks liquidity risk includes credit cards which are managed with

tight controls and low limits. Credit card use and limits are reviewed regularly. The Balance Sheet indicates that Territory Wildlife Parks has a liquidity risk and is reliant on Government guarantee. Territory Wildlife Parks is currently finalising an alternative operating model which is partly to address liquidity issues.

The following tables detail the entity's remaining contractual maturity for its financial assets and liabilities.

(d) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. It comprises interest rate risk, price risk and currency risk. The primary market risk that the Territory Wildlife Parks is exposed to is interest rate risk.

(i) Interest Rate Risk

Territory Wildlife Parks' has limited exposure to interest rate risk as all financial assets and financial liabilities, with the exception of the cash at bank

and the Gift Fund held are non-interest bearing. Interest earned on the Gift Fund is accounted for as both an asset and a liability, therefore changes to the variable rates of 100 basis points (1%) at reporting date would have had no effect on the entity's profit or loss and equity. The exposure to interest rate risk on the remaining financial assets and financial liabilities is set out in the following table.

	Profit or Loss and Equity	
	100 Basis Points Increase \$'000	100 Basis Points Decrease \$'000
30 June 2017		
Financial Assets – cash and deposits	4	(4)
Net Sensitivity	4	(4)
30 June 2016		
Financial Assets – cash and deposits	3	(3)
Net Sensitivity	3	(3)

(ii) Price Risk

Territory Wildlife Parks is not exposed to price risk as it does not hold units in unit trusts.

(iii) Currency Risk

Territory Wildlife Parks is not exposed to currency risk as the entity does not hold borrowings denominated in foreign currencies or transactional currency exposures arising from purchases in a foreign currency.

(e) Net Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The highest and best use takes into account the use of the asset that is physically possible, legally permissible and financially feasible.

Notes to the Financial Statements

For the year ended 30 June 2017

When measuring fair value, the valuation techniques used maximise the use of relevant observable inputs and minimise the use of unobservable inputs. Unobservable inputs are used to the extent that sufficient relevant and reliable observable inputs are not available for similar assets/liabilities.

Observable inputs are publicly available data that are relevant to the characteristics of the assets/liabilities being valued. Observable inputs used by the entity include, but are not limited to, published sales data for land and general office buildings.

Unobservable inputs are data, assumptions and judgments that are not available publicly, but are relevant to the characteristics of the assets/liabilities being valued. Such inputs include internal entity adjustments to observable data to take account of particular and potentially unique characteristics/functionality of assets/liabilities and assessments of physical condition and remaining useful life.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the following fair value hierarchy based on the inputs used:

Level 1 – inputs are quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 – inputs are unobservable.

The fair value of financial instruments is determined on the following basis:

- > the fair value of cash, deposits, advances, receivables and payables approximates their carrying amount, which is also their amortised cost;
- > the fair value of derivative financial instruments are derived using current market yields and exchange rates appropriate to the instrument; and
- > the fair value of other monetary financial assets and liabilities is based on discounting to present value the expected future cash flows by applying current market interest rates for assets and liabilities with similar risk profiles.

The carrying amount of financial assets and financial liabilities recorded in the financial statements approximates to their respective net fair values. Where differences exist, these are not material.

18. Community Service Obligations

	2017 \$'000	2016 \$'000
Community Service Obligation Received	7 824	7 824

The Community Service Obligation covers non-commercial activities.

19. Related Parties

(i) Related Parties

Territory Wildlife Parks is a Government Business Division (GBD) which is wholly owned and controlled by the Territory Government. Related parties of Territory Wildlife Parks include:

- > the Portfolio Minister and key management personnel (KMP) because they have authority and responsibility for planning, directing and controlling the activities of the entity directly; and
- > spouses, children and dependants who are close family members of the Portfolio Minister or KMP; and
- > all public sector entities that are controlled and consolidated into the whole of government financial statements; and
- > any entities controlled or jointly controlled by KMP's or the Portfolio Minister or controlled or jointly controlled by their close family members.

(ii) Key Management Personnel (KMP)

Key management personnel of the Territory Wildlife Parks are those persons having authority and responsibility for planning, directing and controlling the activities of Territory Wildlife Parks.

These include the Minister of Tourism and Culture, the Chief Executive Officer, members of the governance board and executive leadership team of Territory Wildlife Parks as listed in the annual report.

(iii) Remuneration of Key Management Personnel

The details below excludes the salaries and other benefits of Minister of Tourism and Culture as the Minister's remunerations and allowances are payable by the Department of the Legislative Assembly and consequently disclosed within the Treasurer's Annual Financial Statements. The below note also excludes the salaries and other benefits of the Department of Tourism and Culture Governance Board as these members remuneration and allowances are payable by the Department of Tourism and Culture and consequently disclosed within the Department of Tourism and Culture's Annual Financial Statements.

The aggregate compensation of key management personnel of Territory Wildlife Parks is set out below:

	2017 \$'000
Short-term employee benefits	287
Long-term benefits	-
Post-employment benefits	26
Termination benefits	-
Total	313

Notes to the Financial Statements

For the year ended 30 June 2017

(iv) Related Party Transactions

Transactions with Northern Territory Government Controlled Entities

Territory Wildlife Parks's primary ongoing source of funding is a Community Service Obligation (CSO) payment received from the Department of Tourism and Culture.

The following table provides quantitative information about related party transactions entered into during the year with all other Northern Territory Government controlled entities.

Related Party	Revenue from Related Parties	Payments to Related Parties	Amounts Owed by Related Parties	Amounts Owed to Related Parties
	2017 \$'000	2017 \$'000	2017 \$'000	2017 \$'000
All NTG Departments	7 837	2 591	1	234
Associates	-	-	-	-
Subsidiaries	-	-	-	-

Territory Wildlife Parks has one significant transaction with other government entities which relates to a Community Service Obligation (CSO) payment received from the Department of Tourism and Culture. The remaining transactions with other government entities are not individually significant.

Other related party transactions are as follows:

Given the breadth and depth of Territory Government activities, related parties will transact with the Territory Public Sector in a manner consistent with other members of the public including paying stamp duty and other government fees and charges and therefore these transactions have not been disclosed. No other related party transactions have occurred in the 2016-17 year.

20. Contingent Liabilities and Contingent Assets

(a) Contingent Liabilities

The entity has no contingent liabilities as at 30 June 2017 or 30 June 2016.

(b) Contingent Assets

The entity has no contingent assets as at 30 June 2017 or 30 June 2016.

Notes to the Financial Statements
